Subject: We need more information about your application EPR/AP3947JS/A001

Importance: High

Dear Stephen Raasch

We need more information about your application

Application reference: EPR/AP3947JS/A001

Operator: George Barlow, James Barlow, and Richard Barlow

Facility: Taylors Wold Farm, Cotgrave Road, Owthorpe, Nottinghamshire, NG12 3GE

Thank you for your application received on 04/04/22.

I need to ask you for some missing information before I can do any more work on your application. Please provide us with the following:

- You have an incinerator marked on the drainage plan and it is listed in the emissions table in the technical standards document - however this is not mentioned elsewhere. Please confirm if there is an incinerator on site. The documents contradict themselves. Are carcasses incinerated on-site or are they taken off-site by a third party?
- The accident risk assessment and routine maintenance schedule documents are not site specific and have a different farm name. Provide site specific versions of these documents.
- In section 6b of the application form (Form B3.5) you have indicated the site's water use is from 'surface water or groundwater abstraction'. Please confirm which it is, and provide information regarding where this will be abstracted from, how much will be abstracted, and any controls you will have in place for this.
- Please confirm the efflux velocity for the roof fans.

Please send the information, quoting the above application reference, to:

Email address: ellie.caves@environment-agency.gov.uk

Postal address:

Regulated Industry Team, Permitting Support, NPS Sheffield
Quadrant 2
99 Parkway Avenue
Parkway Business Park
Sheffield
S9 4WF

Please send the information within 10 working days of this letter (by 07/06/22).

If we do not receive the information within 10 working days we will return your application.

If we do receive the requested information within 10 working days, we'll continue to check your application. We'll check to see if there's enough information for the application to be 'duly made'. Duly made means

that we have all the information we need to begin determination. Determination is where we assess your application and decide if we can allow what you've asked for.

We'll let you know by letter whether your application can be duly made. If it can't be duly made, we'll return your application to you.

If we do have to return your application we'll send you a partial refund of your application payment. We'll retain 20% of the application charge to cover our costs in reviewing your application and requesting information. This maximum amount we'll retain is capped at £1,500. Further information on charging can be found at: <https://www.gov.uk/government/publications/environmental-permitting-ep-charges-scheme>

If you have any questions please phone or email me using the contact details below.

Yours sincerely

Ellie Caves
