

Operating Techniques

Question 3a1 - Document references from Table S1.2 of environmental permit no longer valid or have been superseded.

Table S1.2 Operating Techniques		
Description	Parts	Update
EPR/FP3137GF/A001	The operating techniques described in the Application.	Valid subject to proposed variation – see Document reference WWTOA1.
Additional information	The techniques described in the site accident management plan and air dispersion modelling report (including ecological receptors).	Accident Management Plan now superseded by Environmental Risk Assessment (ERA) – see Document reference WWERA1. Dispersion modelling now superseded by revised odour dispersion modelling – See Document reference WWOEM1.
	Information received regarding daily checks procedure for rainwater balancing pond.	Visual assessment and ammonia testing pending discharge to onsite pond.
Application EPR/FP3137GF/V002	Appendix C2 5a, C2 6, C3 3(a), C3 3b1 to C3 3b3, C3 4(a) and (b), C3 6(d) and (e) and supporting information submitted in the Application.	
Application EPR/FP3137/V002	Document reference C2 2a, C2 2b, C2 3a, C2 3d, C2 5c, C2 6, C3 3(a), C3 3b1, C3 3b3, C3 4(a) and (b), C3 6(d) and (e), H1 assessment, Appendix C2 3b, Appendix C2 5a and Appendix C3 5 of supporting information submitted in the Application.	Revised H1 Environmental Risk Assessment – See Document reference WWERA1.
Response to email dated 02/07/12	Air quality data – thermal input of CHP and exit velocity of nitrogen dioxide, sulphur dioxide and carbon monoxide.	
Response to Schedule 5 Notice dated 16/07/12	Description of replacement carbon filter.	Superseded by new replacement carbon filter. See design specification Document reference WWCFDS1.
Response to Schedule 5 Notice dated 16/07/12	Noise modelling data	

Response to email dated 23/07/12	Revised air modelling report to include nutrient and acid deposition at ecological receptors	Valid. Also see revised odour dispersion modelling – Document reference WWODM1.
Response to email dated 31/07/12	Revised air dispersion modelling report	Superseded. See revised odour dispersion modelling – Document reference WWODM1.
Response to email dated 03/08/12	Nitrogen dioxide, sulphur dioxide and carbon monoxide process contribution at residential receptors	Valid.
Response to email dated 10/08/12	Revised site plan showing locations of biofilter and carbon filter	Superseded. See revised site layout plans showing locations of replacement and/or new abatement systems – Document references WWPSE1, WWSLP3.
Application EPR/FP3137/V008	Application forms Part C2 and C3 and referenced supporting information	Partially valid. New submitted variation application forms Part C2 and C3.
Response to Regulation 61 Notice dated 21/10/2019	<ul style="list-style-type: none"> • Annex 1 returns spreadsheet. • Compliance and operating techniques identified in response to BAT conclusions 1 to 8, 10 to 24, and 33 to 38 in the Waste Treatment BREF published on 17 August 2018. 	Partially superseded. See revised BAT conclusions – Document reference WWBAT1.
