Subject: EPR/FB3708UK/V002 We Need More Information About Your Application

Dear Lara Ayris

Environmental Permitting (England and Wales) Regulations 2016
Application reference: EPR/FB3708UK/V002
Operator: CLEARWATER D C 2001 LIMITED
Facility: Clearwater D C 2001 Ltd, Hunters Road, Corby, NN17 5JE

Thank you for your application received on 07/08/2023. The following is to confirm our conversation of 30/04/24.

Payment breakdown

Unfortunately, the application payment you sent is incorrect. The correct application charge is £29,829.00. This leaves a balance of **£21,828.00** to pay.

The breakdown of your application fees is as follows:

- Application fee for hazardous waste transfer station (substantial variation) 5.3 A(1) (a) (ii) Disposal or recovery of hazardous waste with a capacity exceeding 10 tonnes per day – physico-chemical treatment £14,401. (Substantial Variation)
- Application fee for increasing storage capacity (normal variation) Section 5.6 (A)1 (a) Temporary storage of hazardous waste with a total capacity exceeding 50 tonnes fee £12,167.00. (Substantial Variation)
- 1.19.2 Habitats assessment £779
- 1.19.3 Fire Prevention Plan £1,241
- 1.19.5 Emissions Management Plan £1,241

Missing Information

I need to ask you for some missing information before I can do any more work on your application. Please provide us with more information to the following questions below.

1. Your application requires an assessment under the Habitats Regulations. The charge for this assessment is not included in your baseline application charge. You will therefore need to make an additional payment of £779.
2. You need to send us a Dust Management Plan. This should explain how you'll prevent or minimise dust in line with our guidance control and monitor emissions for your environmental permit (<https://www.gov.uk/guidance/control-and-monitor-emissions-for-your-environmental-permit#emissions-that-do-not-have-set-limits>). The charge for our assessment of your plan is not included in your baseline application charge. You will therefore need to make an additional payment of £1,241.
3. Your continuing competence certificate has expired (26/10/2023). You need to send us a valid continuing competence certificate.
4. You need to send us a Site Condition Report (SCR). For a substantial variation to a facility storing hazardous substances a SCR should be submitted. This should comply with H5 guidance by identifying 'relevant hazardous substances (RHS)' and including a stage 1-3 assessment where this identifies a risk to soil/and or groundwater to establish baseline reference data (<https://www.gov.uk/government/publications/environmental-permitting-h5-site-condition-report>).
5. You need to send us a Site Plan or plans in reference to form Part C2 Section 5a. This should clearly mark the site boundary or discharge point, or both. Also include site drainage plans, site layout plans, and plant design drawings/process flow diagrams as required ([See the guidance notes on part C2.](#))
6. You need to send us an Environmental Risk Assessment. As a minimum a site specific environmental risk assessment (ERA) should be submitted in accordance with our guidance on risk assessments for your environmental permit (<https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permit>).
7. You need to send us a Best Available Techniques (BAT) Assessment. This should explain how you'll apply the relevant BAT conclusions, BREF or technical guidance to your operations (<https://www.gov.uk/guidance/best-available-techniques-environmental-permits>).
8. Your current permit has three waste codes not restricted to spent activated carbon and are not permitted in Table S1.1 (spent activated carbon for recovery). These waste codes are 19 12 11*, 19 13 05* and 19 13 06. How are you processing these three waste codes?

Please reply directly to this email with your information and copy in aminata.bundu@environment-agency.gov.uk.

Please send the information and payment within 12 working days of this letter on **28/05/2024**. Details of how to pay are given in Part F of the application form.

If we do not receive the information and payment within 10 working days we will return your application.

If we do receive the requested information and payment within 10 working days, we'll continue to check your application. We'll check to see if there's enough information for the application to be 'duly made'. Duly made means that we have all the information we need to begin determination. Determination is where we assess your application and decide if we can allow what you've asked for.

We'll let you know by letter whether your application can be duly made. If it can't be duly made, we'll return your application to you.

If we do have to return your application we'll send you a partial refund of your application payment. We'll retain 20% of the application charge to cover our costs in reviewing your application and requesting information. This maximum amount we'll retain is capped at £1,500. Further information on charging can be found at: <https://www.gov.uk/government/publications/environmental-permits-and-abstraction-licences-tables-of-charges>.

If you have any questions please phone me on 07443 131528 or email aminata.bundu@environment-agency.gov.uk.

Yours sincerely,

Aminata Bundu
