These site-specific documents are accompanied by SUEZ's overarching Integrated Management System (IMS) comprising quality, environmental and health and safety requirements which are certified to ISO 14001, ISO 9001 and ISO 45001 standards. It should be noted that SUEZ IMS system is a live system and is continually updated. The full SUEZ IMS covers all SUEZ activities, therefore not all sections of the IMS are applicable to a particular site type. References to relevant sections are made within the site-specific documents.

Together, the site-specific documents and IMS describe how SUEZ Recycling & Recovery UK Ltd as the permitted operator will minimise the risk of pollution from the activities at Sidegate Lane Transfer Station (the site) which is operated under Environmental Permit (the permit) EPR/XP3092NX.

The site operations have been certified to ISO14001, ISO 9001 and ISO 45001.
