

**Plate 1.** A view of the dense scrub patch along the western boundary, with woodland to the north.

**Plate 2.** A view of the intensively managed marshy grassland which comprises the majority of the site, facing east.

**Plate 3.** A view of the woodland block which lies adjacent to the northern boundary, with a dense scrub patch bordering it.

**Plate 4.** A view of the dense scrub patch located along the western boundary (facing south).

**Plate 5.** A view of the western boundary where the hedgerow ends, facing north.

**Plate 6.** A view of the scattered trees within the dense scrub patch along the southern boundary (facing east).

**Plate 7.** A view of the road and ruderal vegetation located adjacent to the southern boundary (facing west).

**Plate 8.** A view of the site facing towards the western boundary.

**Plate 9.** A view of the north-eastern corner of the site. The location of the dense scrub bordering the woodland block.

**Plate 10.** A view of the woodland block located adjacent to the northern boundary.

**Plate 11.** A view of the dense scrub located along the eastern boundary as well as the intensively managed marshy grassland.

**Plate 12.** A closer view of the dense scrub patch located along the western boundary, predominantly comprised of bramble.

**Plate 13.** A view of the area of land adjacent to the western boundary.

**Plate 14.** A view of the entrance to the site, with evidence of heavy machinery used to intensively manage the site.

**Plate 15.** A view of a section of the southern boundary, with scattered trees and evidence of heavy machinery used to intensively manage the site.

**Plate 16.** Another view of the area of land adjacent to the western boundary.

**Plate 17.** A view of the south-western corner of the site.
