## 2 Point source emissions to air, water and land

Fill in Table 2 below with details of the point source emissions that result from the operating techniques at each of your waste operations.

Fill in one table for each waste facility.

## **Table 2 - Emissions**

Name of the waste operation	Waste transfer operations			
Point source emissions to air				
Emission point reference and location	Source	Parameter	Quantity	Unit
See dust management plan Appendix 8				
no single point emissions as in open air				
general emissions only				
Point source emissions to water (other than sew	vers)			·
Emission point reference and location	Source	Parameter	Quantity	Unit
See drainage plan ref 22209/004				
Refer EMS document A for parameters and				
quantities of testing etc				
Point source emissions to sewers, effluent treat	ment plants or other t	ransfers off site		
Emission point reference and location	Source	Parameter	Quantity	Unit
Point source emissions to land	'	1	,	1
Emission point reference and location	Source	Parameter	Quantity	Unit
