# Application for an environmental permit Part A – About you

You will need to fill in this part A if you are applying for a new permit, applying to change an existing permit or surrender your permit, or want to transfer an existing permit to yourself. Please check that this is the latest version of the form available from our website.

Please read through this form and the guidance notes that came with it.

The form can be:

you have given this sheet.

- 1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.
- 2 Printed off and filled in by hand. Please write clearly in the answer spaces.

**Note:** if you believe including information on a public register would not be in the interests of national security you must

tick the box in section 4 of F1 or F3 and enclose a letter telling us that you have told the Secretary of State. We will not include the information in the public register unless directed otherwise.

It will take less than one hour to fill in this part of the application form.

Where you see the term 'document reference' on the form, give the document references and send the documents with the application form when you've completed it.

# Application for an environmental permit – Part C2 – General – varying a bespoke permit

Fill in this part of the form, together with part A and the relevant parts of C3 to C7 and part F1 or F2, if you are applying to vary (change) the conditions or any other part of the permit. Please check that this is the latest version of the form available from our website.

You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or changing existing ones).

Waste operation changing to installation or vice versa?

If your changes mean that a waste operation becomes an installation (or vice versa) you also need to fill in either part C3 (waste to installation) or part C4 (installation to waste).

You do not need to resend any information from your original permit application if it is not affected by your proposed changes.

# Please read through this form and the guidance notes that came with it.

The form can be:

- 1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.
- 2 Printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than two hours to fill in this form.

#### **Contents**

- About the permit
- 2 About your proposed changes
- 3 Your ability as an operator
- 4 Consultation
- 5 Supporting information
- 6 Environmental risk assessment
- 7 How to contact us

# Form EPC: Application for an environmental permit - Part C2 general - varying a bespoke permit 2 About your proposed changes, continued Changes or additions to existing activities 2b Please give us brief details in the box below. More detailed information can be given in Table 1 below. Fill in Table 1 with details of all the proposed changes to current activities. In the final column of the table, give us the document reference for the proposed changes and send them to us with your filled in application form. Fill in a separate table for each activity you are applying to vary or add. Use a separate sheet if you have a long list and send it to us with your application form. Tell us below the reference you have given this document. Document reference You only need to fill in one table for your mining waste operations. 2c Consolidating (combining) or updating existing permits If your proposed change is to modernise (update) your permit, now answer 2c1; otherwise go to 2d. If your proposed change is to consolidate (combine) a number of permits, now answer 2c2; otherwise go to 2d. Note: In both cases we may require additional information from you about, for example, your management system. Therefore we would always advise you to talk to us before you submit any application to modernise or consolidate permits. 2c1 Do you want to have a modern style permit? No 🗌 Yes 🗌 2c2 Identify all the permits you want to consolidate (combine) by listing the permit numbers in Table 2 below. Table 2 - Permit numbers 2d Treating batteries Are you proposing to treat batteries? No □ Yes Tell us how you will do this and send us a copy of your explanation Document reference for the explanation Ship recycling Is your activity covered by the Ship Recycling Regulations 2015? (See the guidance notes on part C2.) No □ Tell us how you will do this. Please send us a copy of your explanation and your facility recycling plan, and tell us below the Yes 🗌 reference numbers you have given these documents. Document reference for the explanation Document reference for the facility recycling plan

EPC2 Version 12, July 2018 page 2 of 9

Is this a renewal of an existing authorisation covered by the Ship Recycling Regulations 2015?

Yes Tell us the expiry date of your existing authorisation

(DD/MM/YYYY)

No □

# Application for an environmental permit Part C3 – Variation to a bespoke installation permit

Fill in this part of the form, together with part A, part C2 and part F1, if you are applying to vary (change) the conditions or any other part of the permit. Please check that this is the latest version of the form available from our website.

You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or making changes to existing ones).

You do not need to resend any information from your original permit application if it is not affected by your proposed changes.

Please read through this form and the guidance notes that came with it.

The form can be:

1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.

2 Printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than three hours to fill in this part of the application form.

#### Contents

- 1 What activities are you applying to vary?
- 2 Emissions to air, water and land
- 3 Operating techniques
- 4 Monitoring
- 5 Environmental impact assessment
- 6 Resource efficiency and climate change
- 7 How to contact us

Appendix 1 – Specific questions for the combustion sector Appendix 2 – Specific questions for the chemical sector

Appendix 3 – Specific questions for the intensive farming sector

Appendix 4 – Specific questions for the clinical waste sector Appendix 5 – Specific questions for the hazardous and non-

hazardous waste recovery and disposal sector Appendix 6 – Specific questions for the waste incineration

Appendix 6 – Specific questions for the waste incineration sector

Appendix 7 - Specific questions for the landfill sector

# 1 What activities are you applying to vary?

Fill in Table 1a below with details of all the activities listed in schedule 1 of the Environmental Permitting Regulations (EPR) and all directly associated activities (DAAs) (in separate rows), that you propose to carry out at the installation.

Fill in a separate table for each installation you are applying to vary. Use a separate sheet if you have a long list and send it to us with your application form. Tell us below the reference you have given the document.

Document reference

EPC3 Version 10, July 2018 page 1 of 18

# Table 1a – Types of activities

Schedule 1 listed activities						
Installation name	Schedule 1 references (See note 1)	Description of the Activity (See note 2)	Activity capacity (See note 3)	Annex I (D codes) and Annex II (R codes) and descriptions	Hazardous waste treatment capacity (if this applies) (See note 3)	Non-hazardous waste treatment capacity (if this applies) (See note 3)
Add extra rows if you need them. If you do not have enough room, go to the line below or send a separate document and give us the document reference here	Put your main activity first			For installations that take waste only	For installations that take waste only	For installations that take waste only

Name of DAA		Description of the DAA (ple	ase identify the schedule 1 a	activity it serves)		
Add extra rows if you need	them					
For installations that take v	vaste	Total storage capacity (See	note 5 below)			
		Annual throughput (tonnes	each year)			

EPC3 Version 10, July 2018 page 2 of 18

#### 1 What activities are you applying to vary?, continued

#### Notes

- 1 Quote the section number, part A1 or A2 or B, then paragraph and sub paragraph number as shown in part 2 of schedule 1 to the regulations.
- 2 Use the description from schedule 1 of the regulations. Include any extra detail that you think would help to accurately describe what you want to do.
- 3 By 'capacity', we mean:
  - the total incineration capacity (tonnes every hour) for waste incinerators;
  - the total landfill capacity (cubic metres) for landfills;
  - the total treatment capacity (tonnes each day) for waste treatment;
  - the total storage capacity (tonnes) for waste storage operations;
  - the processing and production capacity for manufacturing operations; or
  - the thermal input capacity for combustion activities.
- 4 Fill this in as a separate line and give an accurate description of any other activities associated with your schedule 1 activities. You cannot have DAAs as part of a mobile plant application.
- 5 By 'total storage capacity', we mean the maximum amount of waste, in tonnes, you store on the site at any one time.

#### Types of waste accepted

For those installations that take waste, for each line in Table 1a (including DAAs), fill in a separate document to list those wastes you will accept on to the site for that activity. Give the List of Wastes catalogue code and description (search for 'Technical guidance on how to assess and classify waste' at www.gov.uk/environment-agency).

. If you need to exclude waste from your activity or facility by restricting the description, quantity, physical nature, hazardous properties, composition or characteristic of the waste, include these in the document. Send it to us with your application form.

Please provide the reference for each document.

You can use Table 1b as a template.

If you want to accept any wastes with a code ending in 99, you must give us more information and a full description.

Document reference for this extra information

#### Table 1b – Template example – types of waste accepted and restrictions

Waste code	Description of waste
Example	Example
02 01 08*	Agrochemical waste containing hazardous substances
06 01 02*	Hydrochloric acid

#### 2 Emissions to air, water and land

Fill in Table 2 below with details of the emissions that result from the operating techniques at each of your installations. Fill in one table for each installation.

#### Table 2 - Emissions

Installation name					
Point source emissions to air	Point source emissions to air				
Emission point reference and location	Source	Parameter	Quantity	Unit

#### **Supporting information**

# 3 Operating techniques

#### 3a Technical standards

Fill in Table 3 for each activity, at the installation you have referred to in Table 1a above. List the relevant technical guidance note (TGN) or notes you are planning to use. If you are planning to use the standards set out in the TGN, there is no need to justify using them.

You must justify your decisions in a separate document if:

- there is no technical standard;
- the technical guidance provides a choice of standards; or
- you plan to use another standard.

This justification could include a reference to the Environmental Risk Assessment provided in part C2 (general bespoke permit) of the application form.

The documents you have referenced in Table 3 should summarise the main measures you use to control the main issues identified in your risk assessment (search for 'Risk assessment for your environmental permit' at www.gov.uk/environment-agency) or technical guidance. For each of the activities listed in Table 3, describe the type of operation and the options you have chosen for controlling emissions from your process.

EPC3 Version 10, July 2018 page 4 of 18

## 3 Operating techniques, continued

#### Table 3 - Technical standards

Fill in a separate table for each activity at the installation.

Installation name		
Description of the schedule 1 activity or directly associated activity	Relevant technical guidance or best available techniques as described in BAT conclusions under IED (see footnote below)	Document reference (if appropriate)
*Directive 2010/75/EU of the European Parliament a pollution prevention and control)	nd of the Council of 24 November 2010 on indu	strial emissions (integrated
If appropriate, use block diagrams to help describe t	he operation and process. Provide the referenc	es for the description.
Document reference for the diagram or description		
<b>3a1 Does your permit (in Table 1.2 Operating Town documents or parts of documents submitt</b> No □ Go to 3b  Yes □  Tell us in a separate document what document refere	ted as part of a previous application for th	is site?
Tell us below the reference number you have given the		•
Document reference		

## 3b General requirements

Fill in a separate Table 4 for each installation.

## **Table 4 – General requirements**

Name of the installation	
If the TGN or your risk assessment shows that emissions of substances not controlled by emission limits are an important issue, send us your plan for managing them	Document reference or references
Where the TGN or your risk assessment shows that odours are an important issue, send us your odour management plan	Document reference or references
If the TGN or your risk assessment shows that noise or vibration are important issues, send us your noise or vibration management plan (or both)	Document reference or references

Search for 'Risk assessment for your environmental permit' at www.gov.uk/environment-agency.

EPC3 Version 10, July 2018 page 5 of 18

#### 3 Operating techniques, continued

#### 3c Types and amounts of raw materials

Fill in Table 5 for all schedule 1 activities. Fill in a separate table for each installation.

#### Table 5 - Types and amounts of raw materials

Name of the installation				
Capacity (See note 1 bel	ow)			
Schedule 1 activity	Description of raw material and composition	Maximum amount (tonnes) (See note 2 below)	Annual throughput (tonnes each year)	Description of the use of the raw material including any main hazards (include safety data sheets)

#### **Notes**

- 1 By 'capacity', we mean the total storage capacity (tonnes) or total treatment capacity (tonnes each day).
- 2 By 'maximum amount', we mean the maximum amount of raw materials on the site at any one time.

Use a separate sheet if you have a long list of raw materials, and send it to us with your application form. Please also provide the reference for this extra sheet.

Document reference for the sheet		

#### 3d Information for specific sectors

For some of the sectors, we need more information to be able to set appropriate conditions in the permit. This is as well as the information you may provide in sections 5, 6 and 7. For those activities listed below, you must answer the questions in the related document.

#### Table 6 - Questions for specific sectors

Sector	Appendix
Combustion	See the questions in appendix 1
Chemicals	See the questions in appendix 2
Intensive farming	See the questions in appendix 3
Clinical waste	See the questions in appendix 4
Hazardous and non-hazardous waste recovery and disposal	See the questions in appendix 5
Incinerating waste	See the questions in appendix 6
Landfill	See the questions in appendix 7

#### **General information**

#### 4 Monitoring

#### 4a Describe the measures you use for monitoring emissions by referring to each emission point in Table 2 above

You should also describe any environmental monitoring. Tell us:

- how often you use these measures;
- the methods you use; and
- the procedures you follow to assess the measures.

Document reference

#### 4b Point source emissions to air only

Provide an assessment of the sampling locations used to measure point source emissions to air. The assessment must use M1 (search for 'M1 sampling requirements for stack emission monitoring' at www.gov.uk/environment-agency).

Document reference of the assessment

#### Appendix 2 - Specific questions for the chemical sector

#### 1 Please provide a technical description of your activities

The description should be enough to allow us to understand:

- the process;
- the main plant and equipment used for each process;
- all reactions, including significant side reactions (that is, the chemistry of the process);
- the material mass flows (including by products and side streams) and the temperatures and pressures in major vessels;
- the all emission control systems (both hardware and management systems), for situations which could involve releasing a significant amount of emissions particularly the main reactions and how they are controlled;
- a comparison of the indicative BATs and benchmark emission levels standards: technical guidance notes (TGNs); additional guidance 'The production of large volume organic chemicals' (EPR 4.01); 'Speciality organic chemicals sector' (EPR 4.02); 'Inorganic chemicals sector' (EPR 4.03); and best available techniques reference documents (BREFs) for the chemical sector.

# Form EPC: Application for an environmental permit - Part C3 varying a bespoke installation permit Appendix 6 – Specific questions for the waste incineration sector If you are proposing to accept clinical waste please also fill in questions 1, 2 and 3 of appendix 4 above. Do you run incineration plants as defined by Chapter IV of the Industrial Emissions Directive (IED)? No \( \subseteq \) You do not need to answer any other questions in this appendix Yes | IED applies Are you subject to IED as an incinerator or co-incinerator? As an incinerator As a co-incinerator Do any of the installations contain more than one incineration line? No Now go to section 4 Yes □ 3 How many incineration lines are there within each installation? Fill in a separate table for each installation Installation reference Number of incineration lines within the installation Reference identifiers for each line You must provide the information we ask for in questions 4, 5 and 6 below in separate documents. The information must at least include all the details set out in section 2 ('Key Issues') of S5.01 'Incineration of waste: additional guidance' (under the sub heading 'European legislation and your application for an EP Permit'). You must answer questions 7 to 13 on the form below. Describe how the plant is designed, equipped and will be run to make sure it meets the requirements of IED, taking into account the categories of waste which will be incinerated Document reference Describe how the heat created during the incineration and co-incineration process is recovered as far as possible (for example, through combined heat and power, creating process steam or district heating) Document reference Describe how you will limit the amount and harmful effects of residues and describe how they will be recycled where this is appropriate Document reference For each line identified in question 3, answer questions 7 to 13 below Question 3 identifier, if necessary Do you want to take advantage of the Article 45 (1)(f) allowance (see below) if the particulates, CO or TOC continuous emission monitors (CEM) fail? No □ This allows 'abnormal operation' of the incineration plant under certain circumstances when the CEM for Yes 🗌 releases to air have failed. Annex VI, Part 3(2) sets maximum half hourly average release levels for particulates (150mg/m³), CO (normal ELV) and TOC (normal ELV) during abnormal operation. Describe the other system you use to show you keep to the requirements of Article 13(4) (for example, using another CEM, providing a portable CEM to insert if the main CEM fails, and so on).

EPC3 Version 10, July 2018 page 15 of 18

# Appendix 6 – Specific questions for the waste incineration sector, continued

Do you want to replace continuous HF emission monitoring with periodic hydrogen fluoride (HF) emission monitoring by relying on continuous hydrogen chloride (HCl) monitoring as allowed by IED Annex VI, Part 6 (2.3)? Under this you do not have to continuously monitor emissions for hydrogen fluoride if you control hydrogen chloride and keep it to	a
level below the HCl ELVs. No □	
Yes Please give reasons for doing this	
9 Do you want to replace continuous water vapour monitoring with pre-analysis drying of exhaust gas samples, allowed by IED Annex VI, Part 6 (2.4)?	as
Under this you do not have to continuously monitor the amount of water vapour in the air released if the sampled exhaust gas is doublefore the emissions are analysed.	ried
No □	
Yes Please give your reasons for doing this	
Do you want to replace continuous hydrogen chloride (HCl) emission monitoring with periodic HCl emission monitoring, as allowed by IED Annex VI, Part 6 (2.5), first paragraph?	
Under this you do not have to continuously monitor emissions for hydrogen chloride if you can prove that the emissions from this pollutant will never be higher than the ELVs allowed.  No $\Box$	
Yes  Please give your reasons for doing this	

EPC3 Version 10, July 2018 page 16 of 18

### Appendix 6 – Specific questions for the waste incineration sector, continued

Do you want to replace continuous HF emission monitoring with periodic HF emission monitoring, as allowed by IED Annex VI, Part 6 (2.5), first paragraph? Under this you do not have to continuously monitor emissions for hydrogen fluoride if you can prove that the emissions from this pollutant will never be higher than the ELVs allowed. No  $\square$ Yes 

Please give your reasons for doing this Do you want to replace continuous  $SO_2$  emission monitoring with periodic sulphur dioxide ( $SO_2$ ) emission monitoring, as allowed by IED Annex VI, Part 6 (2.5), first paragraph? Under this you do not have to continuously monitor emissions for sulphur dioxide if you can prove that the emissions from this pollutant will never be higher than the ELVs allowed. No □ Yes 

Please give your reasons for doing this If your plant uses fluidised bed technology, do you want to apply for a derogation of the CO WID ELV to a maximum of 100 mg/m<sup>3</sup> as an hourly average, as allowed by IED Annex VI, Part 3? No □ Does not apply  $\square$ Yes 

Please give your reasons for doing this

# Application for an environmental permit Part C4 – Varying a bespoke waste operation permit

Fill in this part of the form, together with parts A, C2 and F1, if you are applying to vary (change) the conditions or any other part of the permit. Please check that this is the latest version of the form available from our website.

You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or making changes to existing ones).

You do not need to resend any information from your original permit application if it is not affected by your proposed changes.

Please read through this form and the guidance notes that came with it.

The form can be:

1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.

2 Printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than three hours to fill in this part of the application form.

#### **Contents**

- 1 What waste operations are you applying to vary?
- 2 Emissions to air, water and land
- 3 Operating techniques
- 4 Monitoring
- 5 How to contact us

Appendix 1 – Specific questions for waste facilities that accept clinical waste

Appendix 2 – Specific questions for waste facilities that accept hazardous waste

Appendix 3 – Specific questions for the recovery to land for agricultural benefit of compost like outputs from the treatment of mixed municipal solid wastes

Appendix 4 – Specific questions for inert landfills and deposit for recovery operations

# 1 What waste operations are you applying to vary?

Fill in Table 1a with details of what you are applying to vary.

Fill in a separate table for each waste operation you are applying to vary. Use a separate sheet if you have a long list and send it to us with your application form. Tell us below the reference you have given this document.

Document reference

#### Types of waste accepted

For each line in Table 1a, fill in a separate document to list those wastes you will accept on the site for that operation, giving the List of Wastes catalogue code (search for 'Technical guidance on how to assess and classify waste' at www.gov.uk/government/ organisations/environment-agency). If you need to exclude waste from your activity or facility by restricting the description, quantity, physical nature, hazardous properties, composition or characteristic of the waste, include these in the document. Send it to us with your application form.

EPC4 Version 11, July 2018 page 1 of 10

#### Table 1a – Waste operations which do not form part of an installation

Name of the waste operation	Description of the waste operation	Annex I (D codes) and Annex II (R codes) and descriptions	Hazardous waste treatment capacity (if this applies). See note 1	Non-hazardous waste treatment capacity (if this applies). See note 1
Add extra rows if you need them. If you do not have enough room, go to the line below or send a separate document and give us the document reference here	Use the description from the guidance. Include any extra detail that you think would help to accurately describe what you want to do			
For all waste operations	Total storage capacity (see note 2)			
Tot all waste operations	Annual throughput (tonnes each year)			

#### Notes

- By 'capacity', we mean the total landfill capacity (cubic metres) for landfills, the total treatment capacity (tonnes each day) for waste treatment and the total storage capacity (tonnes) for waste storage operations
- waste treatment and the total storage capacity (tonnes) for waste storage operations.
  By 'total storage capacity', we mean the maximum amount of waste in tonnes you store on the site at any one time.

EPC4 Version 11, July 2018 page 2 of 10

#### 1 What waste operations are you applying to vary?, continued

Please provide the document reference. You can use Table 1b as a template.

If you want to accept any waste with a code ending in 99, you must provide more information and a full description in the document.

Document reference	

# Table 1b - Template example - types of waste accepted and restrictions

Have there been any changes to your proposal since the discussions?	
No 🗆	
Yes □	
Please send us a copy of your waste recovery plan that complies with our guidance at https://www.gov.uk/guidance/waste-recove plans-and-permits. You need to highlight any changes you have made since your pre-application discussions. Also give us the reference number of the document with your justification.	ry-
Document reference	

Please note that there is an additional charge for the assessment of a waste recovery plan that must be submitted as part of this application. For the charge see https://www.gov.uk/topic/environmental-management/environmental-permits.

# 2 Emissions to air, water and land

Fill in Table 2 below with details of the emissions that result from the operating techniques at each of your waste operations. Fill in one table for each waste facility.

#### **Table 2 - Emissions**

Name of the waste operation				
Point source emissions to air				
Emission point reference and location	Source	Parameter	Quantity	Unit
Point source emissions to water (other than sewers)				
Emission point reference and location	Source	Parameter	Quantity	Unit

EPC4 Version 11, July 2018 page 3 of 10

## 2 Emissions to air, water and land, continued

#### Table 2 - Emissions, continued

Point source emissions to sewers, effluent treatment plants or other transfers off site					
Emission point reference and location	Source	Parameter	Quantity	Unit	
Point source emissions to land				,	
Emission point reference and location	Source	Parameter	Quantity	Unit	

## **Supporting information**

## 3 Operating techniques

#### 3a Technical standards

Fill in Table 3a for each operation referred to in Table 1a above and list the relevant technical guidance note (TGN) or notes you are planning to use. If you are planning to use the standards set out in the TGN, there is no need to justify using them.

You must justify your decisions in a separate document if:

- there is no technical standard;
- the technical guidance provides a choice of standards; or
- you plan to use another standard.

This justification could include a reference to the Environmental Risk Assessment provided in part C2 (General bespoke permit) of the application form.

The documents should summarise the main measures you use to control the main issues identified in your risk assessment (search for 'Risk assessment for your environmental permit' at www.gov.uk/government/organisations/environment-agency) or technical guidance. For each of the activities listed in Table 3a, describe the type of operation and the options you have chosen for controlling emissions from your process.

#### Table 3a - Technical standards

Fill in a separate table for each waste operation.

Waste operation				
Relevant technical guidance	Document reference (if appropriate)			
	Relevant technical guidance			

EPC4 Version 11, July 2018 page 4 of 10

### 3 Operating techniques, continued

In all cases, describe the type of facility or operation you are applying for, and, if appropriate, use block diagrams to help describe the process. Provide the document references below.

Document reference

#### 3b General requirements

Fill in a separate table for each waste operation.

#### Table 3b - General requirements

Name of the waste operation	
If the TGN or your risk assessment shows that emissions of substances not controlled by emission limits are an important issue, send us your plan for managing them	Document reference or references
If the TGN or your risk assessment shows that odours are an important issue, send us your odour management plan.	Document reference or references
If your activity type is listed in the guidance document 'Control and monitor emissions for your environmental permit' as needing an odour management plan, or your risk assessment shows that odours are an important issue, you need to send us your odour management plan	
If the TGN or your risk assessment shows that noise or vibration are important issues, send us your noise or vibration management plan (or both)	Document reference or references

We may need to ask for management plans or risk assessments in other circumstances based on our regulatory experience. If you are unsure as to whether you need to submit a management plan with your application, please discuss this with the Environment Agency prior to submission.

Search for 'Risk assessment for your environmental permit' at www.gov.uk/government/organisations/environment-agency.

#### 3c Information for specific sectors

For some of the sectors, we need more information to be able to set appropriate conditions in the permit. This is as well as the information you may provide in sections 5, 6 and 7. For those activities listed in Table 3c, you must answer the questions in the related document.

#### Table 3c - Questions for specific sectors

Sector	Appendix
Clinical waste	See the questions in appendix 1
Disposing of and recovering hazardous waste	See the questions in appendix 2
Recovery to land for agricultural benefit of compost like outputs from the treatment of mixed municipal solid wastes	See the questions in appendix 3
Inert landfill and deposit of waste on land for construction, land reclamation, restoration or improvement	See the questions in appendix 4

#### **General information**

## 4 Monitoring

## 4a Describe the measures you use for monitoring emissions by referring to each emission point in Table 2 above

You should also describe any environmental monitoring. Tell us:

- how often you use these measures;
- the methods you use; and
- the procedures you follow to assess the measures.

Document reference

#### 4b Point source emissions to air only

Provide an assessment of the sampling locations used to measure point source emissions to air. The assessment must use M1. (Search for 'M1 sampling requirements for stack emission monitoring' at www.gov.uk/government/organisations/environment-agency.)

Document assessment reference

EPC4 Version 11, July 2018 page 5 of 10

#### 5 How to contact us

If you need help filling in this form, please contact the person who sent it to you or contact us as shown below.

General enquiries: 03708 506 506 (Monday to Friday, 8am to 6pm)

Textphone: 03702 422 549 (Monday to Friday, 8am to 6pm)

Email: enquiries@environment-agency.gov.uk

Website: www.gov.uk/government/organisations/environment-agency

If you are happy with our service, please tell us. It helps us to identify good practice and encourages our staff. If you're not happy with our service, please tell us how we can improve it.

Please tell us if you need information in a different language or format (for example, in large print) so we can keep in touch with you more easily.

Feedback	
(You don't have to answer this part of the form, but it w	ill help us improve our forms if you do.)
We want to make our forms easy to fill in and our guida comments you may have about this form or the guidan	nce notes easy to understand. Please use the space below to give us any ce notes that came with it.
How long did it take you to fill in this form?	
We will use your feedback to improve our forms and gu	idance notes, and to tell the Government how regulations could be
made simpler.	
Would you like a reply to your feedback?	
Yes please	
No thank you

## Appendix 3 – Specific questions for the recovery to land for agricultural benefit of compost like outputs from the treatment of mixed municipal solid wastes

Provide an accurate and reliable characterisation of your compost like outputs (CLO). This should be based on

sampling and analysis of the CLO produced by the treatment process over a 12 month period and in accordance with section 2 of TGN 6.15 Document reference Provide an agricultural benefit assessment for the use of your CLO. This should be based on section 2 of TGN 6.15 and should be signed and dated by an appropriate technical expert Document reference Provide a site specific risk assessment of risks to soil and food chain receptors. This should be based on Schedule 2 of TGN 6.15 and include a map with a green outline showing the boundary of the area being treated and include locations where the waste will be stored and spread; any spring, well or borehole used to supply water for domestic or food production purposes that is within 250 metres of the area being treated; any spring, well or borehole not being used for domestic or food production purposes that is within 50 metres of the area being treated: any European designated sites (candidate or Special Area of Conservation, proposed or Special Protections Area in England and Wales or Ramsar Site) or Sites of Special Scientific Interest (SSSI) which are within 500 metres of the place where waste is to be stored or spread; the location of public rights of way; any Groundwater Source Protection Zones: surface watercourses; and any buildings or houses within 250 metres of the area being treated; land drains within the boundary. Document reference Are the technical standards and measures fully in line with those set out in section 3 of TGN 6.15? Yes 🗌 No Provide justification for departure from TGN 6.15 and a copy of the proposed technical standards, measures or procedures.

EPC4 Version 11, July 2018 page 9 of 10

## Form EPC: Application for an environmental permit - Part C4 varying a bespoke waste operation permit Appendix 4 – Specific questions for inert waste landfill and deposit for recovery operations Provide your Environmental Setting and Site Design (ESSD) report 1 Document reference Note: You should use the Environment Agency template to help you develop an environmental setting and site design (ESSD) report. Provide your Waste Acceptance Procedures (including Waste Acceptance Criteria) 2 Document reference Have you provided a hydrogeological risk assessment (HRA) for the site? 3 Yes 🗌 No \( \square\) If no, please refer to the section of your ESSD that explains why this is unnecessary for your site Document reference Have you completed an outline engineering plan for the site? 4 Yes 🗌 No If no, please refer to the section of your ESSD that explains why this is unnecessary for your site Document reference Have you provided a stability risk assessment (SRA) for your site? 5 Yes 🗌 No If no, please refer to the section of your ESSD that explains why this is unnecessary for your site Document reference Have you completed a monitoring plan for the site? 6 Yes $\square$ No If no, please refer to the section of your ESSD that explains why this is unnecessary for your site Document reference Have you completed a plan for closing the site and procedures for looking after the site once it has closed? Yes For inert waste landfill you must provide a closure plan If no for deposit for recovery activities please refer to the section of your ESSD that explains why this is unnecessary for your No $\square$ site Document reference Spreading waste to support plant growth Does the activity involve the deposit of waste to create or treat a growing medium (R10 for land treatment)? Yes □ No $\square$

Note: If you are not depositing waste to create or treat a growing medium, you do not need to answer questions 8b and 8c.

## 8b If you answered 'yes' to question 8a, can you meet both of the following criteria?

- waste types to be used for the R10 activity are top soils (EWC 17 05 04 or 20 02 02), peat (EWC 17 05 04 or 20 02 02) and/or soil from cleaning and washing beet (EWC 02 04 01) only, and
- The depth of deposit for the R10 activity will not exceed the final 50cm

Yes □ No □

8c If you have answered 'No' to 8b above, have you completed a benefit statement?

No If no, please explain why

Document reference

Note: Refer to our guidance when completing your statement (including EPR 8.01, section 6)

EPC4 Version 11, July 2018 page 10 of 10

# Application for an environmental permit Part F1 – Charges and declarations

Fill in this part for all applications for installations, waste operations, mining waste operations, water discharges, point source groundwater discharges and groundwater discharges onto land. Please check that this is the latest version of the form available from our website.

## Please read through this form and the guidance notes that came with it.

The form can be:

- 1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.
- 2 Printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than two hours to fill in this part of the application form.

#### **Contents**

- 1 Working out charges
- 2 Payment
- 3 The Data Protection Act 1998
- 4 Confidentiality and national security
- 5 Declaration
- 6 Application checklist
- 7 How to contact us
- 8 Where to send your application

## 1 Working out charges (you must fill in this section)

You have to submit an application fee with your application. You can find out the charge by searching for 'Environment Agency charging scheme and guidance: environmental permits' at www.gov.uk/government/organisations/environment-agency.

Please remember that the charges are revised on 1 April each year and that there is an annual subsistence charge to cover the costs we incur in the ongoing regulation of the permit.

#### Table 1 Type of application (add number if more than one)

Installation	Waste	Mining waste	Water discharge/point source discharge to groundwater	Groundwater spreading onto land

## Paying by credit or debit card

If you are paying by credit or debit card, either we can call you or you can fill in the separate form CC1 and enclose it with the application. We will destroy your card details once we have processed your payment. We can accept payments by Visa, MasterCard or Maestro card only.

EPF1 Version 10, April 2018 page 2 of 7

## 2 Payment, continued

Please call me to arrange payment by debit or debit card  $\Box$  I have enclosed form CC1 with my application  $\Box$ 

#### Paying by electronic transfer BACS reference

If you choose to pay by electronic transfer you will need to use the following information to make your payment.

Company name Environment Agency

Company address SSCL (Environment Agency), PO Box 797, Newport Gwent, NP10 8FZ

Bank RBS/NatWest

Address London Corporate Service Centre, CPB Services, 2nd Floor, 280 Bishopsgate, London EC2M 4RB

Sort code 60-70-80

Account number 10014411

Account name EA RECEIPTS

Payment reference number PSCAPPXXXXXYYY

You need to create your own reference number. It should begin with PSCAPP (to reflect that the application is for a permitted activity) and it should include the first five letters of the company name (replacing the X's in the above reference number) and a unique numerical identifier (replacing the Y's in the above reference number). The reference number that you supply will appear on our bank statements.

You should also email your payment details and reference number to ea fsc ar@sscl.gse.gov.uk.

If you are making your payment from outside the United Kingdom, it must be in sterling. Our IBAN number is GB23NWK60708010014411 and our SWIFTBIC number is NWBKGB2L.

If you do not quote your reference number, there may be a delay in processing your payment and application.

Now read section 3 below.

#### 3 The Data Protection Act 1998

We, the Environment Agency, will process the information you provide so that we can:

- deal with your application;
- make sure you keep to the conditions of the licence, permit or registration;
- process renewals; and
- keep the public registers up to date.

We may also process or release the information to:

- offer you documents or services relating to environmental matters;
- consult the public, public organisations and other organisations (for example, the Health and Safety Executive, local authorities, the emergency services, the Department for Environment, Food and Rural Affairs) on environmental issues;
- carry out research and development work on environmental issues:
- provide information from the public register to anyone who asks:
- prevent anyone from breaking environmental law, investigate cases where environmental law may have been broken, and take
  any action that is needed;
- assess whether customers are satisfied with our service, and to improve our service; and
- respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows). We may pass the information on to our agents or representatives to do these things for us.

Now read section 4 below.

## 4 Confidentiality and national security

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

You can ask for information to be made confidential by enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application.

#### Only tick the box below if you wish to claim confidentiality for your application

Please treat the information	in my application	as confidential	
Please treat the illionnation	i iii iiiy appiication (	as connuential	

EPF1 Version 10, April 2018 page 3 of 7

## 4 Confidentiality and national security, continued

#### **National security**

You can tell the Secretary of State that you believe including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Secretary of State and you must still include the information in your application. We will not include the information in the public register unless the Secretary of State decides that it should be included.

You can find guidance on national security in 'Environmental permitting guidance: core guidance', published by Defra and available via our website at gov.uk.

You cannot apply for national security via this application.

Now go to section 5.

#### 5 Declaration

If you knowingly or carelessly make a statement that is false or misleading to help you get an environmental permit (for yourself or anyone else), you may be committing an offence under the Environmental Permitting (England and Wales) Regulations 2010.

A relevant person should make the declaration (see guidance notes on part F1). An agent acting on behalf of an applicant is NOT a relevant person.

Each individual (or individual trustee) who is applying for their name to appear on the permit must complete this declaration. You will have to print a separate copy of this page for each additional individual to complete.

If you are transferring all or part of your permit, both you and the person receiving the permit must make the declaration. You must fill in the declaration directly below; the person receiving the permit must fill in the declaration under the heading 'For transfers only'.

Note: we will issue a letter to both current and new holders to confirm the transfer. If you are changing address we will need to send this letter to your new address; therefore please tell us your new address in a separate letter.

If you are unable to trace one or more of the current permit holders please see below under the transfers declaration.

I declare that the information in this application is true to the best of my knowledge and belief. I understand that this application may be refused or approval withdrawn if I give false or incomplete information.

If you deliberately make a statement that is false or misleading in order to get approval you may be prosecuted. I confirm that my standard facility will fully meet the rules that I have applied for (this only applies if the application includes standard facilities) Tick this box to confirm that you understand and agree with the declaration above, then fill in the details below (you do not have to provide a signature as well) Tick this box if you do not want us to use information from any ecological survey that you have supplied with your application (for further information please see the guidance notes on part F1) Title (Mr, Mrs, Miss and so on) First name Last name on behalf of (if relevant; for example, a company or organisation and so on) Position (if relevant; for example, in a company or organisation and so on) Today's date (DD/MM/YYYY)

## For transfers only – declaration for person receiving the permit

A relevant person should make the declaration (see guidance notes on part F1). An agent acting on behalf of an applicant is NOT a relevant person.

I declare that the information in this application to transfer an environmental permit to me is true to the best of my knowledge and belief. I understand that this application may be refused or approval withdrawn if I give false or incomplete information.

Note: If you cannot trace a person or persons holding the permit you may be able to transfer the permit without their declaration as above. Please contact us to discuss this and supply evidence in your application to confirm you are unable to trace one or all of the permit holders.

If you deliberately make a statement that is false or misleading in order to get approval you may be prosecuted.
