

About this consultation

NR31 0LS, East Coast Waste Limited: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for East Coast Waste Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/GB3009GG
- Regulated facility type: This is a variation from a Standard Rules permit (SR2008 No3 - 75kte household, commercial and industrial waste transfer station with treatment) to a Bespoke waste permit. The site boundary is being extended by a small amount, which brings the site closer to sensitive receptors, which means they can no longer meet the standard rules. There will be no change to the site layout, activities on site or tonnages.
- Regulated facility location: East Coast Waste Limited, Harfreys Road, Great Yarmouth, NR31 0LS

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact PSCpublicresponse@environment-agency.gov.uk

How we will use your information

We will look to make comments received publicly available at our Environment Agency public register.
