Dear Sir/ Madam,

Peterborough Metal Recycling T/a BW Riddle – Environmental Permit EPR/FB3607HE
Minor variation to increase the waste acceptance limit for metal shredding

**** Please note that Peterborough Metal Recycling have recently submitted an application to the Environment Agency for an administrative variation to their Environmental Permit (EPR/FB3607HE) to change the site name, registered company name and registered company office address. This minor variation application has been completed based on information within the current permit. Please let me know if this is not your preferred permitting strategy.**

Mayer Environmental Ltd (Mayer) have been commissioned and authorised to apply on behalf of Peterborough Metal Recycling trading as BW Riddle (located at South Fen Road, Bourne, PE10 0DN) for a minor variation to their current Environmental Permit (EP) to increase the total annual quantity of waste accepted for their metal shredding installation.

Specifically, the proposed change is to increase the current 120,000 tonnes per year to 180,000 tonnes per year of waste accepted for the A1 and A2 metal shredding activities.

The variation will **not** modify any other condition in the EP.

Documents Included with the Application:

1. Application forms (Based on the permit variation required, the application forms have been filled in accordingly)
 - a. Part A
 - b. Part C2
 - c. Part C3

- d. Part F1
2. Non-Technical Summary (Document Ref: 129-002815 - Non-Technical Summary)
 3. Environmental risk assessment (Document Ref: 129-002815 – Environmental Risk Assessment)
 4. Confirmation of Environment Agency fee (Document Ref: PSCAPPBWMIN001 - Confirmation of Payment)

The application only contains information on points that are to be varied.

I hope the information provided gives the clarity required to support the application and to complete the permit variation for BW Riddle. Please contact me if you have any queries.

Yours sincerely,

Sam Smith
Environmental Consultant
