

TITLE: ENVIRONMENTAL STATEMENT OF INTENT

Bakkavor, Spalding is a Bakkavor Group owned operation comprising of multi-factory food production, office and logistic operations. We are located on a 65 Acre site situated to the North East of Spalding, Lincolnshire. Our neighbours include domestic housing, industrial zones as well as the River Welland and associated plant & animal life.

Senior Management are firmly committed to the prevention of pollution and the overall monitoring and continual improvement performance of the Bakkavor, Spalding Environmental Management System. (EMS). This will be achieved by the adoption of the following aims :-

Environmental responsibility will be introduced across the business operations within a culture of continual improvement. The site's EMS will provide the framework to achieve objectives and targets in order to :-

- Reduce waste and energy consumption
- Encourage the efficient use of natural resources
- Eliminate pollution.

Periodically assess and re-evaluate our environmental impacts by monitoring & auditing our performance against targets.

We aim to meet existing and future environmental legislation and expect those working on our premises to meet our stringent standards.

Relevant training will be given where required to ensure that all employees can contribute to the company's drive to continual environmental improvement.

Martin Husselbee
General Manager
