

Site Condition Report

1.0 SITE DETAILS	
Applicants Name	Halton Pigs Ltd
Activity Address	Rowlands Farm Lade Bank Old Leake Lincolnshire PE22 9RL
National Grid Reference	540633,355536
Document Reference for Site Condition Report at permit application and surrender	February 2026
	Location Plan
	Layout/Drainage Plan

2.0 Condition of the Land at Permit issue	
Environmental setting including: Geology Hydrogeology Surface Waters	<p>The poultry unit lies on level ground to the south of New Leake. Predominant land use is arable farming. Field pattern is semi large scale with a strong pattern of field boundaries. There are no sensitive receptors within 400m of site.</p> <p>Topography and Drainage</p> <p>The poultry houses are between 2 and 5 metres above sea level. Soil bunding and tree planting will help to minimise the visual intrusion normally associated with poultry units. Site clean water drainage all goes to an unlined attenuation pond with outlet to Leake Bank drain to the south.</p> <p>Geology and Hydrogeology</p> <p>According to the BGS Extract British Geological Survey map shows that the Bedrock geology comprises Kimmeridge</p>

	<p>Clay formation – Mudstone, of the Kimmeridgian period.</p> <p>Searches indicate the site is not underlain with a Bedrock Aquifer, or a superficial aquifer.</p> <p>The Site is not situated in a Groundwater Vulnerability Zone.</p> <p>The site is situated within a Surface Nitrate Vulnerable Zone.</p> <p>The site is not situated in a Groundwater/Source water protection zone.</p> <p>The site is not situated in a drinking water protection/safeguard zone.</p> <p>The site is situated in a flood zone 3 area, all poultry houses and ancillary structures are mounted on raised concrete pads, poultry houses fitted with sealed kick boards and dwarf concrete mass walls preventing any ingress of flood waters and potential subsequent release of polluted waters.</p> <p>Hydrology</p> <p>General drainage is in a southeasterly direction. Average rainfall for this area is 1100 mm.</p>
<p><u>Pollution history including:</u></p> <p>Pollution incidents that may have affected land</p> <p>Historical land uses and associated contaminants</p> <p>Any visual/olfactory evidence of existing</p>	<p>None noted</p> <p>Polluting substances – None noted Previous use prior to 2026 – Arable farming.</p> <p>None noted</p>

contamination	
Evidence of damage to pollution prevention measures	None noted
Evidence of historical contamination	N/A
3.0 Permitted Activities	<p>Six poultry houses for Broiler chicken. This will give a total of 270,000 places. Heating will be provided by LPG heaters. The working area where vehicles operate is laid to concrete.</p> <p>Feed is delivered in covered lorries and stored on site in vermin proof steel galvanised bins.</p> <p>Immediately following depopulation, litter is removed off site and sold.</p> <p>The houses are then washed and disinfected prior to the cycle beginning again. Underground storage tanks have been installed to catch all wash waters.</p> <p>Dead birds are removed from the houses and stored in sealed containers awaiting collection.</p> <p>Diesel fuel storage is in a bunded integral tank in the standby generator.</p>
Non permitted activities undertaken	N/A
Document References	<p>Location Plan</p> <p>Layout/Drainage Plan</p> <p>H1 Assessment</p>
4.0 Changes to Activity	N/A
5.0 Measures taken to protect Land	<p>Site will be operated in compliance with “how to comply” routine maintenance schedules are followed and recorded and with any abnormal operations recorded.</p>
6.0 Pollution Incidents	N/A
7.0 Soil, gas and water quality monitoring	<p>No monitoring will be undertaken at the installation.</p>
