Notes:
1. For the purposes of an approved Drainage Survey, 1:10 Aerial Photogrammetry Data has been transformed from the following projection into a **Geographic Coordinate System** of **WGS 84**. Some dimensions of original data will be rounded. The above survey data is an approximation of the ground surface and does not represent the ground surface or the ground surface elevation at the time of the survey. It is not intended to be used as a basis for construction or other engineering or planning purposes. It is not intended to be used as a basis for any other engineering or planning purposes. It is not intended to be used as a basis for any other engineering or planning purposes. It is not intended to be used as a basis for any other engineering or planning purposes.
