Grade A management

All deliveries of grade A to be inspected on site yard via the trailer inspection ladders, appropriate PPE to be worn.

The inspection of grade A is to be carried out by the operator or site manager, the operator is looking for any lower grade materials ie metal or treated timber. If found the load is to be rejected and returned to supplier immediately. The supplier must be informed of the reason the load has been rejected. The net tonnage must be recorded and a copy of the delivery note will be kept.

All grade A deliveries are to state meets the criteria for approved Grade A on transfer notes from suppliers, deliveries without the correct waste transfer notes will not be accepted.
