

About this consultation

PR7 4DL, Chorley Sand & Aggregates Limited: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for Chorley Sand & Aggregates Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/EB3806TM/V003
- Regulated facility type: Physical and chemical treatment of inert and non hazardous waste to produce soil, soil substitutes and aggregates.

Currently operating under a Standard Rules 2010 No 12, the applicant wishes to vary to a bespoke permit.

The proposal is a substantial variation, to increase of the annual throughput from 75,000 to 200,000 tonnes per year. They are removing waste codes to accept chapter 17 waste only and adding 17 09 04 with a restricted description, to comply with WARP protocol. They are also proposing to increase the site boundary by 5,662 m² and add soil washing to the permit.

- Regulated facility location: Sandons Farm Waste Recycling Facility, Off Wigan Lane, Chorley, PR7 4DL

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.
