The EWC codes in the table below list all the additional codes to be added to the permit. These codes include the S2 exemption, and new EWC codes not previously used by Recorra and highlighted in the right-hand column.

20 01 99 is included to facilitate the acceptance of coffee pods from municipal sources. These are accepted as a segregated, dedicated waste stream which is why this code is utilised as opposed to 20 03 01. This is consistent with downstream recipients of the waste stream.
