Hello Helen

Thank you for your email and update on the Tilbury STC permit application.

In terms of the area of the permit to be surrendered I have completed forms A, E2 and F1 for the partial permit surrender along with a site condition report. These documents along with the supporting information and site permit boundary plans are in the shared SharePoint folder - [Waste Team - Partial Permit Surrender May 2024 - All Documents \(sharepoint.com\)](#) I have also attached the 3 forms and the site condition report to this email but not able to attach all of the documents due to their size.

For the area of land to be added I have updated the site condition report that has been submitted with the permit application to include this area – “Tilbury 2022 Site Condition Report May 2024” which is in the SharePoint folder [Waste Team - For Application shared with EA - All Documents \(sharepoint.com\)](#) you should already have access to this folder. I have also attached this file to the email.

Finally, as the permitted area to be surrendered has been reduced I have also provided an updated permit boundary plan for the permit application – “Tilbury permit Boundary Plan May 2024” which is in the SharePoint folder [Waste Team - April 2024 RFI response and supporting documents shared with EA - All Documents \(sharepoint.com\)](#) that you should already have access too. I have also attached this file to the email.

In terms of payment as per the completed F1 form please contact June Hayes (contact details are below) to arrange for the payment of the application fee to be made by credit card. Please note June’s working days are Tuesday to Thursday.
