Dear Sir/Madam,

Re: Bespoke Environmental Permit Application – Riverside Waste Transfer Station

On behalf of our client, Williams Environmental Limited, please find attached an application for a new bespoke permit for a hazardous waste transfer station at Riverside Industrial Estate, off Watson Close, Grays, West Thurrock, RM20 3EF.

Williams Environmental Limited currently operates a facility identical to that proposed at Unit 3 Charles Street Industrial Estate, in Silvertown, London, under Environmental Permit ref. EPR/SP3336SA, however the land on which it is situated is subject to a compulsory land purchase order and so the operator has to relocate the facility before November 2023.

As they are being required to relocate next year as a result of a national infrastructure project (rail) we would like to request that this application is considered for prioritisation so that it can be determined within the required timescales imposed upon the Operator.

A total BACS payment for the amount of **£27,307** has been made to the Environment Agency using payment reference: **PSCAPPWILL5195** (see Part F1 form for working out of fee).

I trust the application is in order but please contact me if you need any further information or have any queries regarding this.

Yours Sincerely,

A. Stocks
