

About this consultation

S25 3SH, SAFETY-KLEEN U.K. LIMITED: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for SAFETY-KLEEN U.K. LIMITED. Please use the reference number below when making comments on this application.

- Permit Number: EPR/FP3794VN/V008
- Regulated facility type: The operator, Safety-Kleen UK Ltd, is seeking a variation to increase permitted waste storage limits at the Dinnington installation. The proposal is to increase the amount of hazardous waste in packages that can be stored from 100 tonnes to 600 tonnes. The application also seeks to increase the overall permitted waste storage capacity on site to 960 tonnes (hazardous and non-hazardous waste combined) at any one time. The operator states that the variation does not involve any physical expansion of the site, changes to existing infrastructure, or any increase in the quantity of non-hazardous waste stored on site. The proposed changes relate solely to increasing the quantity of hazardous waste that can be stored within the existing site layout and infrastructure.
- Regulated facility location: Safety Kleen Dinnington EPR/FP3794VN, Bookers Way, Dinnington, S25 3SH

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.
