

## Polytech Liquid Polymers - List of Activities

- 1 Vacuum Distillation of xylene including Heating, blending and handling TDI Prepolymers (Toluene diisocyanate)
- 2 Polyurethane prepolymer manufacture including the use of MDI (Methyl diphenyl diisocyanate)
- 3 Polyurethane prepolymer manufacture including the use of HDI (Hexamethylene diisocyanate)
- 4 Gas Oil Boiler system for provision of process steam at 2.27MW capacity
- 5 Free cooling Chiller system for provision of chilled water for cooling
- 6 Addition of further bulk tank capacity
