

About this consultation

SK3 8LF, Derek Bradshaw & Lucy Bradshaw: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for Derek Bradshaw & Lucy Bradshaw. Please use the reference number below when making comments on this application.

- Permit Number: EPR/BP3494CT/V002
- Regulated facility type: A11 HCl Waste Transfer and Treatment Station
- The variation is for:

Extension of the permit boundary to include land on all sides to increase the processing and storage capacity of the site (see Drawing No. 3921/2185/04 for details of the existing and proposed permit boundaries);

b) To increase the annual throughput of the site from 4,999 tonnes per year to <75,000 tonnes per annum.

c) To allow the operator to undertake the same list of activities permitted in Table 1.1 the SR 2015 No 6 permit (i.e. Treatment consisting only of manual sorting, separation, screening, baling, shredding, crushing or compaction of waste into different components for disposal, [no more than 50 tonnes per day] or recovery).

d) To remove the restriction for storage of wastes on site to enable this to be controlled by the sites management documentation (i.e. EMS and FPP).

e) To update the conditions of the permit into a modern-style permit.

f) To increase the list of wastes permitted for acceptance at the site to those permitted by the standard rules permit SR 2015 No 6 and to include the waste code 19 12 12 to allow the acceptance of 'co-mingled recyclable waste and part –processed mixed non-hazardous waste from other waste management sites'.

- Treatment processes on site may include the following:

Compacting (by loading shovel / 360° excavator and baling equipment)

Sorting (with loading shovel / 360° excavator or by hand)

Screening (by using appropriate mechanical screening plant and equipment)

Shredding (by using appropriate mechanical shredding plant and equipment)

Separation (by using appropriate mechanical screening plant and equipment)

Blending (by loading shovel / 360° wheeled excavator).

- Regulated facility location: Cheadle Skip Hire, Unit 24, Adswood Road Industrial Estate, Adswood Road, Stockport, Cheshire SK3 8LF

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language. This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you would like to send your response by post, please send to:

Environment Agency
Permitting and Support Centre
Regulated Industry Team
Quadrant 2
99 Parkway Avenue
Sheffield
S9 4WF

But if you'd prefer to submit your response by email, or if you'd like to ask for a printed version of the document to be posted to you, please contact Permitting and Support centre on 03708 506 506, or email PSCpublicresponse@environment-agency.gov.uk

How we will use your information

We will look to make comments received publicly available at our Environment Agency public facing office.

All comments which are made publicly available will exclude email addresses and telephone numbers. Any comments where confidentiality has been claimed will not appear on the public register.

In accordance with the Freedom of Information Act 2000, we may be required to publish your response to this consultation, but will not include any personal information. If you have requested your response to be kept confidential, we may still be required to provide a summary of it.
