Dear Sirs

SUBJECT: EPR/HB3602MC/A001 – Response to Not Duly Made Email

Further to the issue of the 'Not Duly Made' email dated 29/09/2021 for the aforementioned application, please find below the queries raised and our response on behalf of CEMEX UK Materials Limited (CEMEX). The responses below correspond with the individual questions within the Schedule 5 notices and therefore, should be directly referred to.

Application Fees

Question 1 - Application form B2 Appendix 2 question 3, the details of the technical ability person are incomplete and also do not match the information given in question 3. Please review the details and amend with the correct information for the correct individual.

Please find enclosed a revised copy of the Part B2 application form which has been updated to ensure that the details of the proposed technically competent manager (TCM) are consistent throughout the form.

Question 2 - The certification demonstrating technical ability has expired please provide a current certificate and continuing competence for your chosen individual.

Please find enclosed copies of the TCM's original certificates and their most recent continuing competence.

Question 3 - Application form B4 table 1a , you have indicated one of the waste activities you will be undertaking as part of this application is a R10 Land treatment resulting in the benefit to agriculture or ecological improvement, however in appendix 2 question 8a you have ticked "no" Does the activity involve the deposit of waste to create or treat a growing medium (R10 for land treatment)? Please review your answers and amend where appropriate.

In accordance with the Environmental Setting and Site Design (ESSD) report, it is proposed that on site topsoil and subsoil will be used to facilitate the restoration works at the site. There is no requirement to import waste for the restoration works and therefore will not comprise a R10 activity. As such, please find enclosed the following documentation which have been updated to remove any reference to the R10 code:-

- Dust Management Plan (Version 2);
- Gas Screening Report (Version 2);

- Operating Techniques (Version 2); and
- Part B4 application form (Version 2).

Question 4 - Although you have provided a noise Impact assessment you have not mentioned either in a standalone noise management plan or within your ESSD how you will manage noise on site. Please provide a Noise Management Plan in line with the guidance.

Please find enclosed a copy of the Noise Management Plan that has been prepared to support this application.

Question 5 - As part of the requirements for the Noise Impact Assessment please provide the accompanying spreadsheet with the model input data.

Please find enclosed the excel spreadsheet which contains the numerical input data that was used for the Noise Impact Assessment.

We trust the above is satisfactory and allows you to duly make the application. If you have any further questions, please do not hesitate to contact the undersigned.

Yours sincerely

Alice Shaw
