Dear Sirs

RE: Environmental Permit Application for Poyle Quarry Western Extension

Please find enclosed a disc (CD) containing the application for a new bespoke Environmental Permit for a site known as Poyle Quarry Western Extension, located in Poyle, near Slough, Berkshire. This submission is made by PBA on behalf of the Operator, Summerleaze Ltd. The application is for an inert waste landfill following extraction of sand and gravel from the Site.

A document explaining the format and composition of the Environmental Permit Application is also enclosed, together with separate cheques for the inert waste landfill application part and the groundwater discharge application part. The quarry and landfill will be dewatered to allow dry working and the pumped groundwater will be recharged back into the aquifer with no intervention or use, therefore we are also applying for a groundwater abstraction transfer licence (application sent separately).

Please don't hesitate to contact me if you have any queries regarding this application.

Yours sincerely

Kate Riley
Associate
For and on behalf of
