1 Waste Codes

The table below contains the waste codes and description of the waste that will be accepted onsite for storage and feeding to Caudon Cement Plant via the Geocycle AFR Platform.

All waste will come in separately under its particular waste code and no waste will be treated. Waste is simply bulked up for onward transfer and use at the neighbouring cement plant. All material will be loose and there will be no bales.

Table 1 Accepted Waste Codes

| Waste Code | Description of the waste |
|-------------------|---|
| 19 12 10 | Combustible Waste (refuse derived fuel) |
| 19 10 04 | Fluff-light fraction and dust from metal containing wastes other than those mentioned in 19 10 03 |
| 19 12 01 | Paper and cardboard |
| 19 12 04 | Plastic and rubber |
| 19 12 08 | Textiles |
| 10 01 01 | Bottom ash, slag and boiler dust (excluding boiler dust mentioned in 10 01 04) |
| 10 01 15 | Bottom ash, slag and boiler dust from co-incineration other than those mentioned in 10 01 14 |
