

About this consultation

ST4 8HX, Veolia ES (UK) Limited: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for Veolia ES (UK) Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/CB3906TM
- Regulated facility type: This application is to change the current standard rules permit into a bespoke Household, Commercial and Industrial waste transfer station permit. Included in the changes are to move the storage of wood and glass to outside bays, change the layout of the building to accommodate a new bunded food waste bay inside the building. The addition of storage of scrap metal and food waste in containers outside the building. The addition of EWC 10 12 06 (discarded Moulds). Also included is the replacement of 5,000 litre fuel tank with a 30,000 litre diesel tank and 5,000 litre adblue tank, the tanks will not form part of the permitted activities as these fall outside of the scope of the waste activities which will be permitted.
- Regulated facility location: Stoke Waste Transfer Station, Alderflat Drive, Stoke-on-Trent, ST4 8HX

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact PSCpublicresponse@environment-agency.gov.uk

How we will use your information

We will look to make comments received publicly available at our Environment Agency public register.

All comments which are made publicly available will exclude email addresses and telephone numbers. Any
