

Certificate of Registration

ENVIRONMENTAL MANAGEMENT SYSTEM - ISO 14001:2015

This is to certify that:

Kier Group plc
Optimum House
Clippers Quay
Salford Quays
Manchester
M50 3XP
United Kingdom

Holds Certificate Number:

EMS 653116

and operates an Environmental Management System which complies with the requirements of ISO 14001:2015 for the following scope:

Please see scope page.

For and on behalf of BSI:

Matt Page, Managing Director Assurance - UK & Ireland

Original Registration Date: 2016-07-21

Latest Revision Date: 2024-02-02

Effective Date: 2022-07-13

Expiry Date: 2025-07-12

...making excellence a habit.™

Certificate No: EMS 653116

Registered Scope:

The design, project management and delivery of highways services, projects and maintenance. Street lighting. The manufacture of commercial and road traffic signs. The design of highway maintenance schemes, including undertaking Principal Designer and post construction duties. The design, delivery, maintenance, repair, improvement and renovation of infrastructure and non-infrastructure clean water networks, water treatment and sewage treatment works, and sewer networks. The design, installation, upgrade and maintenance of telecommunications networks. Infrastructure maintenance services for cell sites. Design, planning, construction, operating, maintenance, renewing and installation of low, medium and high pressure gas supply pipelines, including emergency response, to commercial and residential properties. Capital programme works including the design, planning, construction, operating, maintenance and installation of low and high voltage electricity cables to commercial and residential properties, the undergrounding of existing overhead lines, substation works, new connections, work to overhead lines, jointing and emergency response works.

Multi Utility design and construction to enable rail, metro, airport residential, commercial and industrial infrastructure, renewable energy and special projects. The design, delivery, maintenance, repair, improvement and renovation of infrastructure and non-infrastructure clean water networks, water treatment and sewage treatment works and sewer networks. The construction, maintenance, repair and refurbishment of buildings and civil engineering projects including infrastructure, structures and foundations as a sole provider or as a joint venture including the provision of design management services with procured design, supply chain and project management services, and performance of the role of Principal Contractor and or Principal Designer as a sole contractor or as a joint venture. The provision of civil engineering, infrastructure, structures, foundations, services, design management, temporary works, buildings, mechanical, electrical, instrumentation, control automation (MEICA), railway signalling and telecommunications disciplines. The design and delivery of street cleansing, litter and dog bin emptying and the design and maintenance of flowerbeds, associated planting, allotments and memorial benches.

The delivery of 24/7 365 days per year operational support hubs for public and other third party clients. The provision of design and facilities management services for domestic, commercial and industrial premises within the private and public sectors. The undertaking of responsive repairs, void repairs, planned maintenance work, heating, mechanical and electrical work, refurbishment, adaptation, demolition and construction, projects across the public and private sectors including works to social, industrial, education, health and defence sectors. The management and operation of a refuse, recycling and special collection services. Storage, transfer of materials for disposal or recycling.

Design and technical services for major road construction projects to internal and external clients including highways design, structures, geotechnical, technology and lighting and asset management. Maintenance and enhanced repairs of designated roads for highways authorities and the management of supply chain activities where required. Activities including highways reactive maintenance, emergency call outs, winter maintenance, design and implementation of highways schemes, structures, grounds maintenance,
