

Overview

TA5 1UD, NNB Generation Company (HPC) Limited: environmental permit consultation

We want your comments on the proposed decision we have made for this permit for

Hinkley Point C Power Station
Hinkley Point
Near Bridgwater
Somerset
TA5 1UD

If you have any relevant information you feel we have missed, you can provide your comments.

Our consultation does not relate to the UK EPR™ design. It is not about the need for nuclear power, UK energy policy, the siting of nuclear power stations, nor the safety and security of the design. Here are the aspects and issues we can and cannot take account of.

We can take account of

- relevant environmental regulatory requirements and technical standards
- information on local population and sensitive sites
- comments on whether the right process is being used for the activity, for example, whether the technology is the right one
- the potential for the land around the site to have an effect on air quality and what pollution control may be needed
- information that we have not been made aware of in the application, or corrections to incorrect information in the application

We cannot take account of

- issues beyond those in the relevant environmental regulations
- anything outside the remit of the environmental permitting regulations, for example, the proposed location of the site, which is done by the local authority through land use planning
- whether a site should have a formal designation under the conservation of habitats and species regulations or other conservation legislation
- whether the activity should be allowed or not as a matter of principle – for example, we will not consider whether nuclear power generation is an appropriate process or whether alternative methods of generating electricity should be used instead
- land use issues or sustainability challenges, even if it is argued that changing the location of the activity would improve its environmental performance
- the impact of noise and odour from traffic travelling to and from the site
- the legally defined process we follow to determine a permit
- comments about the government's energy policy

Trosolwg

TA5 1UD, NNB Generation Company (HPC) Limited: ymgynghoriad hawlen amgylcheddol

Hoffem eich safbwyntiau chi ynghylch y penderfyniad yr ydym wedi'i gynnig ar gyfer y drwydded hon i

Gorsaf Pŵer Hinkley Point C
Hinkley Point
Ger Bridgwater
Gwlad yr Haf
TA5 1UD

Os oes gennych unrhyw wybodaeth berthnasol yr ydych chi'n credu ein bod wedi'i methu, gallwch rannu'ch sylwadau.

Nid yw ein hymgynghoriad yn ymwneud â dyluniad EPR™ y DU. Nid yw'n ymwneud â'r angen am bŵer niwclear, polisi ynni'r DU, lleoli gorsafoedd pŵer niwclear, na diogelwch y dyluniad. Dyma'r agweddau a'r materion y gallwn ac na allwn gymryd ystyriaeth ohonynt.

Gallwn ystyried y canlynol:

- gofynion rheoleiddio amgylcheddol a safonau technegol perthnasol
- gwybodaeth ar boblogaeth leol a safleoedd sensitif
- sylwadau ar ba un ai a yw'r broses gywir yn cael ei defnyddio ar gyfer y gweithgarwch, er enghraifft, boed ydym yn defnyddio'r dechnoleg gywir
- y potensial i'r tir o gwmpas y safle gael effaith ar ansawdd aer a pha fesurau rheoli llygredd y gellir bod eu hangen
- gwybodaeth nad ydym wedi cael gwybod amdani yn y cais, neu gywiriadau i wybodaeth anghywir yn y cais

Ni allwn ystyried y canlynol:

- materion y tu hwnt i'r rheoliadau amgylcheddol perthnasol hynny
- unrhyw beth y tu hwnt i gylch gwaith y rheoliadau cydsynio amgylcheddol, er enghraifft, lleoliad arfaethedig y safle, a wneir gan yr awdurdod lleol drwy gynllunio defnydd tir
- pa un a ddylai bod gan safle ddynodiad ffurfiol o dan y rheoliadau cadwraeth cynefinoedd a rhywogaethau neu ddeddfwriaeth gadwraeth arall
- pa un ai a ddylid caniatáu'r gweithgarwch ai peidio fel mater o egwyddor – er enghraifft, ni fyddwn yn ystyried a yw cynhyrchu pŵer niwclear yn broses briodol neu a ddylid defnyddio dulliau eraill o gynhyrchu trydan
- materion defnydd tir neu heriau cynaliadwyedd, hyd yn oed pe bai newid lleoliad y gweithgaredd yn gwella'i berfformiad amgylcheddol
- effaith sŵn ac arogl gan draffig yn teithio i'r safle ac oddi yno
- y broses wedi'i diffinio'n gyfreithiol yr ydym yn ei dilyn i wneud penderfyniad am drwydded
- sylwadau am bolisi ynni'r llywodraeth.
