Dear Planning Inspectorate

I wish to make a representation at a full public enquiry on the proposed scrapping of the acoustic fish deterrent for Hinkley Point C. The enquiry terms should be broad to consider the full impact on the environment and compliance with the habitat regulations of any changes proposed by EDF. In view of the anticipated catastrophic impacts on the newly established internationally important Marine Protection Area through nuclear contaminants and the killing of European Protected Species (EPS) through water cooling, this cannot be permitted.

EDF's reasoning for the AFD removal are invalid and EDF should look at alternatives to 'once through cooling systems' to ensure the threat the environmental is removed.

Regards

*Bill Parker BEM*
