Subject: EPR Appeal Hinkley Point 3rd Party Reps Caroline Pearce

Sent: 24 October 2020 18:38
To: ETC <ETC@planninginspectorate.gov.uk>
Subject: Inquiry on permit EPR/HP3228XT/V004: NNB Generation Company (HPC) Limited;

Please take the following feedback on board regarding the enquiry.

The terms of the Inquiry should be wide, to allow scrapping of the licence to be fully considered, because any feasible fish diversion measures could not meet the Habitats Regulations.

Further grounds for scrapping include

- the new international status of the area as a Marine Protection Area.
- the nuclear contaminants that would be disturbed in construction
- the killing of European Protected Species (EPS) sucked in with the abstracted water

The killing of EPS is forbidden under the Conservation of Habitats & Species law, when there is an alternative. There is an alternative – to build a cooling system on the Hinkley Point site, using air-cooling or evaporative cooling towers.

Thank you for considering this

Kind regards

Caroline
