## Application for an environmental permit Part A – About you

You will need to fill in this part A if you are applying for a new permit, applying to change an existing permit or surrender your permit, or want to transfer an existing permit to yourself. Please check that this is the latest version of the form available from our website.

You can apply online for Waste standard rules environmental permits, bespoke waste permits and bespoke Medium combustion plant permits

Apply online for an environmental permit.

Please read through this form and the guidance notes that came with it.

The form can be:

- saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.
- 2) printed off and filled in by hand. Please write clearly in the answer spaces.

**Note:** if you believe including information on a public register would not be in the interests of national security you must enclose a letter telling us that you have told the Secretary of State. We will not include the information in the public register unless directed otherwise.

It will take less than one hour to fill in this part of the application form.

Where you see the term 'document reference' on the form, give the document references and send the documents with the application form when you've completed it.

#### Contents

- 1 About you
- 2 Applications from an individual
- 3 Applications from an organisation of individuals or charity
- 4 Applications from public bodies
- 5 Applications from companies or corporate bodies
- 6 Your address
- 7 Contact details
- 8 How to contact us
- 9 Where to send your application

Appendix 1 – Date of birth information for installation and waste activities (applications for a new permit or transferring a permit) only

#### 8 How to contact us

If you need help filling in this form, please contact the person who sent it to you or contact us as shown below.

General enquiries: 03708 506 506 (Monday to Friday, 8am to 6pm)

Textphone: 03702 422 549 (Monday to Friday, 8am to 6pm)

Email: enquiries@environment-agency.gov.uk

Website: www.gov.uk/government/organisations/environment-agency

If you are happy with our service, please tell us. It helps us to identify good practice and encourages our staff. If you're not happy with our service, please tell us how we can improve it. More information on how to do this is available at: www.gov.uk/government/organisations/environment-agency/about/complaints-procedure.

Please tell us if you need information in a different language or format (for example, in large print) so we can keep in touch with you more easily.

#### 9 Where to send your application

For how many copies to send see the guidance note on part A.

For water discharges by email to PSC-WaterQuality@environment-agency.gov.uk

For waste and installations by email to PSC@environment-agency.gov.uk

For flood risk activity permits send 1 copy only to enquiries@environment-agency.gov.uk or to the local Environment Agency office for where the work is proposed to be carried out.

# Application for an environmental permit Part C2 – General – varying a bespoke permit

Fill in this part of the form, together with part A and the relevant parts of C3 to C7 and part F1 or F2, if you are applying to vary (change) the conditions or any other part of the permit. Please check that this is the latest version of the form available from our website.

You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or changing existing ones).

Waste operation changing to installation or vice versa?

If your changes mean that a waste operation becomes an installation (or vice versa) you also need to fill in either part C3 (waste to installation) or part C4 (installation to waste).

You do not need to resend any information from your original permit application if it is not affected by your proposed changes.

Please read through this form and the guidance notes that came with it.

The form can be:

- saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.
- printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than two hours to fill in this part of the application form.

#### Contents

- 1 About the permit
- 2 About your proposed changes
- 3 Your ability as an operator
- 4 Consultation
- 5 Supporting information
- 6 Environmental risk assessment
- 7 How to contact us

Appendix 1 – Low impact installation checklist Appendix 2 – Date of birth information for Relevant offences and/or Technical ability questions only

#### 1 About the permit

Normal variation

Substantial

Note: If you are applying to convert your existing permit to a standard permit or add a standard facility you need to fill out form C1.

#### 1a Discussions before your application

If you have had discussions with us before your application, give us the permit reference or details on a separate sheet. Tell us below the reference you have given this extra sheet.

| the reference you have given this extra sheet.     |                                   |
|--|-----------------------------------|
| Permit or document reference                       | EPR/JP3122GM                      |

# Appendix 2 — Date of birth information for Relevant offences and/or Technical ability questions only Date of birth information in this appendix will not be put onto our Public Register

| Have | e you filled in the Relevant Offences question? |     |  |
|------|---|-----|--|
| Yes  |   |     |  |
| No   |   |     |  |
| Have | e you filled in the Technical ability question? |     |  |
| Yes  |   |     |  |
| No   |   |     |  |
| 2    | Relevant Offences - date of birth information   |     |  |
| Plea | se give us the following details                |     |  |
| Nam  | ne  |     |  |
| Date | of birth (DD/MM/YY)                             |     |  |
| 3    | Technical ability - date of birth information   |     |  |
| Nam  | ne  |     |  |
| Date | of birth (DD/MM/YY)                             | l I |  |

Fill in this part of the form, together with part C2 and part F1, if you are applying to vary (change) the conditions or any other part of the permit for a water discharge or groundwater activity.

Fill in this part of the form, together with parts C2, C3 and F1 if you are applying to vary or add a point source emission to water, groundwater or sewer from an installation.

Please check that this is the latest version of the form available from our website.

You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or making changes to existing ones).

You do not need to resend any information from your original permit application if it is not affected by your proposed changes.

Please read through this form and the guidance notes that came with it.

The form can be:

- saved onto a computer and then filled in.
- printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than three hours to fill in this part of the application form.

#### Contents

| Ab  | out the effluent – details and type   | 2  |
|-----|---|----|
| 1   | About the variation you are applying for                                      | 10 |
| 2   | About the effluent – how long will you need to discharge the effluent for?    | 10 |
| 3   | How much do you want to discharge?  | 11 |
| 4   | Intermittent sewage discharges  | 12 |
| 5   | Should your discharge be made to the foul sewer?                              | 13 |
| 6   | How will the effluent be treated?   | 14 |
| 7   | What will be in the effluent?   | 15 |
| 8   | Environmental risk assessments and modelling                                  | 16 |
| 9   | Monitoring arrangements   | 17 |
| 10  | Where will the effluent discharge to?   | 18 |
| 11  | How to contact us   | 19 |
| Apı | pendix 1 – Discharges to a borehole or well (or other deep structure)         | 20 |
| Αp  | oendix 2 – Discharges into land   | 28 |
| Apı | oendix 3 – Discharges onto land   | 30 |
| Apı | oendix 4 – Discharges to tidal river, tidal stream, estuary or coastal waters | 31 |
| Apı | oendix 5 – Discharges to non-tidal river, stream, or canal                    | 33 |
| Apı | oendix 6 – Discharges to a lake or pond                                       | 35 |
|     |   |    |

#### About the effluent - details and type

From the list below, choose which type of effluent you are applying for on this form and answer the questions shown in Table 1.

You must fill in a separate copy of this form and the appropriate appendix or appendices for each type of effluent you plan to discharge.

#### Table 1 – About the effluent

| Type of effluent                             | Charge band   | Please<br>tick box | Q1  | Q2            | Q3   | Q4 | Q5   | Q6  | Q7 | Q8     | Q9                   | Q10 |
|--|---|--------------------|-----|---------------|------|----|------|-----|----|--------|----------------------|-----|
| Sewage<br>effluent<br>(non-water<br>company) | 1.3.3 Sewage effluent discharge with a volume up to and including 5 m³/day to surface water from domestic household or organisation operating for charitable purposes |                    | All | a, b,<br>c, d | b, f | -  | a, b | All | -  | b*, f* | a, b, c,<br>f*, h, i | All |
|  | 1.3.4 Sewage effluent discharge with a volume up to and including 5 m³/day to groundwater from domestic household or organisation operating for charitable purposes   |                    | All | a, b,<br>c, d | b, f | -  | a, b | All | -  | d, f*  | a, b, c,<br>f*, h, i | All |
|  | 1.3.5 Sewage effluent discharge with a volume up to and including 5 m³/day to surface water (not requiring specific substances assessment)                            |                    | All | a, b,<br>c, d | b, f | -  | a, b | All | -  | b*, f* | a, b, c,<br>f*, h, i | All |
|  | 1.3.6 Sewage effluent discharge with a volume up to and including 5 m³/day to groundwater (not requiring specific substances assessment)                              |                    | All | a, b,<br>c, d | b, f | -  | a, b | All | -  | d, f*  | a, b, c,<br>f*, h, i | All |
|  | 1.3.7 Sewage effluent discharge with a volume greater than 5 m³/day up to and including 15 m³/day to groundwater (not requiring specific substances assessment)       |                    | All | a, b,<br>c, d | b, f | -  | a, b | All | -  | d, f*  | a, b, c,<br>f*, h, i | All |

| Type of effluent                             | Charge band  | Please<br>tick box | Q1  | Q2            | Q3                   | Q4 | Q5   | Q6  | Q7            | Q8           | Q9                              | Q10 |
|--|--|--------------------|-----|---------------|----------------------|----|------|-----|---------------|--------------|---------------------------------|-----|
| Sewage<br>effluent<br>(non-water<br>company) | 1.3.8 Sewage effluent discharge with a volume greater than 15 m³/day to groundwater (not requiring specific substances assessment)                                 |                    | All | a, b,<br>c, d | b, f                 | -  | a, b | All | -             | d, f*        | a, b, c,<br>d*, e*,<br>f*, h, i | All |
|  | 1.3.9 Sewage effluent discharge to groundwater requiring specific substances assessment (any volume)   |                    | All | a, b,<br>c, d | b, f                 | -  | a, b | All | b, c,<br>d, e | d, f*        | a, b, c,<br>d*, e*,<br>f*, h, i | All |
|  | 1.3.10 Sewage effluent discharge with a volume greater than 5 m³/day up to and including 50 m³/day to surface water (not requiring specific substances assessment) |                    | All | a, b,<br>c, d | b, f                 | -  | a, b | All | -             | b*, f*       | a, b, c,<br>f*, h, i            | All |
|  | 1.3.11 Sewage effluent discharge with a volume greater than 50 m³/day to surface water (not requiring specific substances assessment)                              |                    | All | a, b,<br>c, d | b, f                 | -  | a, b | All | -             | b*, f*       | a, b, c,<br>d*, e*,<br>f*, h, i | All |
|  | 1.3.11 Sewage effluent discharge to surface water requiring specific substances assessment (any volume)  |                    | All | a, b,<br>c, d | b, f                 | -  | a, b | All | b, c,<br>d, e | b*, c,<br>f* | a, b, c,<br>d*, e*,<br>f*, h, i | All |
| Water<br>company<br>WwTW treated<br>sewage   | 1.3.5 Sewage effluent discharge with a volume up to and including 5 m³/day to surface water (not requiring specific substances assessment)                         |                    | All | a, b          | a, f (b is optional) | -  | -    | All | -             | a, b*,<br>f* | a, b, c,<br>f*, h, i            | All |
| effluent                                     | 1.3.6 Sewage effluent discharge with a volume up to and including 5 m³/day to groundwater (not requiring specific substances assessment)                           |                    | All | a, b          | a, f (b is optional) | -  | -    | All | -             | a, d, f*     | a, b, c,<br>f*, h, i            | All |

#### About the variation you are applying for 1

Give a brief description of the changes you want to make to your permit

| -<br>- | s proposed to add the following permitted limits for activity I of environmental permit EPR/JP3122GM: The addition of a permitted limit for total Copper of $102\mu$ g/I; The addition of a permitted limit for Free Chlorine of $1200\mu$ g/I; and The addition of a permitted limit for total Zinc of $140\mu$ g/I. |
|--------|---|
|        | proposed that the discharge of essential products needed for the demineralised water plant is allowed, based on the come of the environmental assessment completed.   |
| 1b     | Give this effluent a unique name  |
|        | Activity I - trade effluent   |
| You    | must use this name to identify this effluent throughout this application and all associated documents.  |
| 1c     | Is this a release from a dam, weir or sluice ('reservoir release') under Schedule 21 of the EPR meaning of water discharge activity?  |
|        | Yes   |
|        | ✓ No  |
| 1d     | Have you obtained all the necessary permissions in addition to this environmental permit to be able to carry out the discharge (see C6 guidance notes for more details)?  |
|        | ✓ Yes   |
|        | □ No  |
|        | □ N/A   |
| 2      | About the effluent – how long will you need to discharge the effluent for?  |
| 2a     | What date do you want the permit for this effluent to start?  |
|        | 30/11/2024 (DD/MM/YYYY)   |
| con    | ase note that charges will start on this date, even if you have not started to discharge, unless you tact us to change (delay) the start date (see the guidance notes on part C6). The start date cannot be ore the permit is issued and cannot be changed (delayed) after it has already passed.                     |
| 2b     | Is the discharge time limited?  |
|        | Yes Please give the date you expect the discharge to end but please note that your permit will not end on that date and you will still need to notify us to surrender the permit  |
|        | (DD/MM/YYYY)  |
|        | ✓ No  |
| 2c     | Will the discharge take place all year?   |
|        | ✓ Yes   |
|        | No Please give details of the months when you will make the discharge   |
|        |   |

| 2d       | , , , , ,   |
|----------|---|

|   | What is the storage time within the sewer and the wet well above the top water level at dry weather flow?     |
| 1 | hours and minutes   |

Volume of the discharge (answer to question 3b)

1500 \_\_\_\_\_ cubic metres / 0.75 = 2000 | x 30 = 60000 \_\_ metres

Is your answer to guestion 5b1 or 5b2 above greater than the distance to the nearest foul sewer (answer to 5a)?

You do not need to explain why you cannot discharge your effluent into the foul sewer at this point. However, we may request this information from you when we determine your application. Now go to question 6.

Yes You must explain on a separate sheet why you cannot discharge your effluent into the foul sewer, giving a reference for the extra sheet. Before you submit the application, you must explore the possibility of connecting to the foul sewer, and send us evidence that you have approached the sewerage undertaker, including their formal response regarding connection, if relevant. You must also show the extra cost of connecting to a sewer compared with the treatment system you propose, and details of any physical obstacles such as roads, railways, rivers or canals.

#### 101262820

#### NOT PROTECTIVELY MARKED

Form EPC: Application for an environmental permit - Part C6 varying a water discharge activity or groundwater activity (point source discharge), or point source emission to water from an installation

We will only agree to the use of private treatment systems within sewered areas if you can demonstrate that:

- the additional cost of connecting to the foul sewer would be unreasonable
- connection is not practically feasible, or
- the proposed private treatment system can be shown to significantly benefit the environment

We are unlikely to grant a permit for a discharge of treated domestic sewage in circumstances where a private sewerage system is being proposed due to a lack of capacity in the nearest public sewerage network.

The guidance notes to part C6 will help you understand what information you need to provide in order to answer this question.

#### 7 What will be in the effluent?

For all applications, whether to surface water, or onto or into ground, you should still check to see if your discharge is likely to contain any of the specific substances listed in the guidance documents on 'Risk assessment for treated sewage or trade effluent discharges to surface water or groundwater' (see <a href="https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permit">https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permit</a>).

Answer the relevant questions for your discharge below.

| 7a | Are any of the specific substances listed in 'Risk assessment for treated sewage or trade effluent discharges to surface water or groundwater' likely to enter the sewerage system upstream of the discharge through any authorised or known inputs? |
|----|--|
|    | Yes  |
|    | ✓ No   |
| 7b | Are any of the specific substances listed in 'Risk assessment for treated sewage or trade effluent discharges to surface water or groundwater' added to or present in the effluent as a result of the activities on the site?                        |
|    | ✓ Yes  |
|    | □ No   |
| 7c | Have any of the specific substances listed in 'Risk assessment for treated sewage or trade effluent discharges to surface water or groundwater' been detected in samples of the effluent or in the sewerage catchment upstream of the discharge?     |
|    | ✓ Yes  |
|    | □ No   |
| 7d | Are there any other harmful or specific substances in your effluent not mentioned in 'Risk assessment for treated sewage or trade effluent discharges to surface water or groundwater'?  |
|    | ✓ Yes  |
|    | □ No   |
| 7e | If you have answered 'No' to any of questions 7a to 7d provide details on a separate sheet of how you have established that the effluent is not likely to contain specific substances.   |
|    | Document reference   |
|    | 101231911  |
| 7f | What is the maximum temperature of your discharge?   |
|    | degrees Celsius  |
| 7g | What is the maximum expected temperature change compared to the incoming water supply?   |
|    | increase in degrees Celsius  |
|    | decrease in degrees Celsius  |

#### **Environmental risk assessments and modelling**

Document reference for the groundwater remediation report

You may need to carry out an environmental risk assessment or modelling to support your application. Please answer all the questions that are relevant to your discharge. If an environmental risk assessment or modelling is required, you must send it to us with your application.

#### 8a Sewer modelling report (for discharges of final effluent from a water company WwTW or intermittent sewage discharges)

| You must carry out sewer modelling following the guidance 'Surface water pollution risk assessment for your environmental permit' at <a href="https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permit">https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permit</a> .  |
|---|
| Send us details of how the modelling was carried out and the outcome.   |
| Document reference for the sewer modelling report   |
|   |
| 8b Discharges to lakes, estuaries, coastal waters or bathing waters   |
| You must carry out modelling following the guidance 'Surface water pollution risk assessment for your environmental permit' at <a guidance="" href="https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-for-your-environmental-permits-gov.uk/guidance/risk-assessments-gov.uk/guidance/risk-assessments-gov.uk/guidance/risk-assessments-gov.uk/guidance/risk-assessments-gov.uk/guidance/risk-assessments-gov.uk/guidance/risk-assessments-gov.uk/guidance/risk-assessments-gov.uk/guidance/gov.uk/guidance/gov.uk/guidance/gov.uk/guidance/gov.uk/guidance/gov.uk/guidance/gov.uk/guidance/gov.uk/guidance/gov.uk/gov.uk/guidance/gov.uk/gov&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;Document reference for the modelling report&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;101231911 Appendix F&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;8c Discharges to freshwater (non-tidal) rivers&lt;/td&gt;&lt;/tr&gt;&lt;tr&gt;&lt;td&gt;If the discharge contains, or potentially contains, any specific substances, you must carry out screening following the guidance 'Surface water pollution risk assessment for your environmental permit' at &lt;a href=" https:="" risk-assessments-for-your-environmental-permit"="" www.gov.uk="">https://www.gov.uk/guidance/risk-assessments-for-your-environmental-permit</a> . The guidance notes on part C6 |
| outline the information you must provide.   |
| Have you answered yes to any of 7a to 7d?   |
| Yes Send us the completed screening tool, along with the raw data used to create the<br>summary statistics  |
| Document reference for the screening tool and raw data  |
|   |
| □ No  |
| 8d Discharges to groundwater  |
| You must carry out a groundwater quantitative risk assessment following the guidance in 'Groundwater risk assessment for your environmental permit' at <a href="https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-environmental-permit">https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-environmental-permit</a> . Send us details of how the modelling was carried out and the outcome.  |
| For groundwater remediation schemes you must send us a site-specific remediation strategy that has be agreed with the local Environment Agency Groundwater and Contaminated Land Team.  |

✓ No

Total 2020

Form EPC: Application for an environmental permit − Part C6 varying a water discharge activity or groundwater activity (point source discharge), or point source emission to water from an installation

9f Do you have a UV disinfection efficacy monitoring point?

□ Yes Please provide the national grid reference

□ No

9g Do you have an event duration monitoring point(s)?

□ Yes Please provide the national grid reference

□ No

9h You should clearly mark on the plan the locations of any of the above that apply to this effluent Document reference for the plan

□ Do you intend to do your own effluent monitoring?

□ Yes

□ No

#### 10 Where will the effluent discharge to?

10a Mark in Table 3 where this effluent discharges to and fill in the relevant appendix or appendices.

You must use the name you gave to this effluent in answer to question 1b of this form when filling in your relevant appendix or appendices.

#### Table 3 – Where the effluent discharges to

Document reference

✓ No

| Receiving environment  | Relevant appendix |  |  |  |
|--|-------------------|--|--|--|
| Borehole or well   | 1                 |  |  |  |
| Into land (for example, through a drainage system)   | 2                 |  |  |  |
| Onto land  | 3                 |  |  |  |
| Tidal river, tidal stream, estuary or coastal waters   | 4                 |  |  |  |
| Non-tidal river, stream or canal   | 5                 |  |  |  |
| Lake or pond   | 6                 |  |  |  |
| 10b Is this effluent discharged through more than one outlet?  |                   |  |  |  |
| $\square$ Yes Give details, on a separate sheet, of the circumstances under which each outlet would be used by this effluent |                   |  |  |  |

10c If you answered yes to question 10b above make sure you show clearly on your discharge point appendix or appendices and site plan that this one effluent can discharge to more than one discharge point.

You must give us all the details we need for each of the discharge points used by this effluent.

#### 11 How to contact us

If you need help filling in this form, please contact the person who sent it to you or contact us as shown below.

General enquiries: 03708 506 506 (Monday to Friday, 8am to 6pm)

Textphone: 03702 422549 (Monday to Friday, 8am to 6pm)

Email: enquiries@environment-agency.gov.uk

Website: https://www.gov.uk/government/organisations/environment-agency

If you are happy with our service, please tell us. It helps us to identify good practice and encourages our staff. If you're not happy with our service, please tell us how we can improve it.

Please tell us if you need information in a different language or format (for example, in large print) so we can keep in touch with you more easily.

| Feedback   |                 |

Clarity approved by Plain English Campaign

## Plain English Campaign's Crystal Mark does not apply to appendices 1 to 6.

# Appendix 1 - Discharges to a borehole or well (or other deep structure)

If you are discharging the effluent to a borehole or well or other deep structure (such as concrete rings, natural swallow hole or deep soakage pit) you must ensure that the discharge is indirect to groundwater. Direct discharges to groundwater cannot be permitted. We will undertake a groundwater quantitative risk assessment on your behalf in line with the guidance 'Groundwater risk assessment for your environmental permit' at <a href="https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-environmental-permit">https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-environmental-permit</a>.

For us to do this you must answer the following questions relevant to your application and provide us with additional information as summarised in Table 4.

Without this information we will be unable to complete the risk assessment and it is likely your application will be rejected.

Answer all the questions below. Use a separate line for each effluent if more than one effluent discharges using this discharge point. Remember, when linking your effluent to a discharge point you must use the name you gave to your effluent in answer to question 1b in the effluent form.

| 1.1 | Give the discharge point a unique name   |  |  |  |  |
|-----|--|--|--|--|--|
|     | For example, 'Outlet 1' (you must use this name to identify the discharge point on the plan)                           |  |  |  |  |
|     |  |  |  |  |  |
| 1.2 | Give the national grid reference of the discharge point  |  |  |  |  |
|     |  |  |  |  |  |
| 1.3 | Is the discharge to ground via a   |  |  |  |  |
|     | ☐ Well   |  |  |  |  |
|     | Borehole   |  |  |  |  |
|     | Other deep structure Please give details (e.g. concrete ring structure, shaft, natural swallow hole, soakage pit etc.) |  |  |  |  |
|     |  |  |  |  |  |
|     |  |  |  |  |  |
|     |  |  |  |  |  |
|     |  |  |  |  |  |
|     |  |  |  |  |  |
|     |  |  |  |  |  |
|     |  |  |  |  |  |
| 1.4 | What is the diameter of the borehole, well or other deep structure that the effluent will be discharged into?          |  |  |  |  |
|     | metres   |  |  |  |  |
| 1.5 | Is the borehole, well or other structure already constructed?  |  |  |  |  |
|     | Yes Now answer questions 1.6 to 1.9  |  |  |  |  |
|     | No Now answer questions 1.10 to 1.12   |  |  |  |  |

# Existing borehole, well or other deep structure

| 1.6 | What is the total depth to the bottom of the existing well, borehole or other structure?  |
|-----|---|
|     | metres below ground level   |
|     | If you are unaware of the actual depth please estimate the depth based on the following categories:   |
|     | □ 0−5 metres  |
|     | 5–10 metres   |
|     | Greater than 10 metres  |
|     | Uncertain   |
|     | What evidence is the estimated depth above based on?  |
|     |   |
| 1.7 | Does the well, borehole or other structure extend into groundwater?   |
|     | ☐ Yes – always contains water   |
|     | ☐ Sometimes – water is present occasionally   |
|     | □ No – never contains water   |
|     | If groundwater is always, or sometimes, present, what is the highest level that the standing water reaches?   |
|     | Measured  |
|     | metres below ground level   |
|     | Estimated   |
|     | metres below ground level   |
| 1.8 | Please provide any records, diagrams or borehole logs you may have that could help us understand:   |
|     | • the method of construction (including any solid casings or linings used)  |
|     | the likely depth of the deep structure  |
|     | • the local groundwater conditions  |
|     | Please provide photocopies where possible. If it is not possible (for example, if the documents are large or bulky) please summarise any additional information you have on a separate sheet. |
|     | Document reference for the records, diagrams, or borehole logs  |
|     |   |

| 1.9    | example, to aid effective drainage), please give details below  |
|--------|---|
|        |   |
|        |   |
|        |   |
|        |   |
|        |   |
| Please | e now answer question 1.13  |
| Prop   | osed borehole, well or other deep structure that has not yet been constructed   |
| 1.10   | Please tell us why you are unable to install a shallow engineered drainage system. This information forms an important part of our permit determination process. Which methods of shallow disposal have you considered, and why did you decide these were not feasible to take forward? Please answer questions 1.10a and 1.10b to provide the results of soakage tests and summarise in the box any relevant information supporting your decisions (for example, permission refusals from landowners or physical constraints, or land availability or proximity to buildings). |
|        |   |
|        |   |
| 1.10a  | What was your percolation value (Vp) result?  |
|        | seconds per millimetre  |
| You m  | ust show in Table 4 how you worked out the percolation value.   |
| Table  | 4 – Percolation value   |

|        | Trial 1 | Trial 2 | Trial 3 | Average |
|--------|---------|---------|---------|---------|
| Hole 1 |         |         |         |         |
| Hole 2 |         |         |         |         |
| Hole 3 |         |         |         |         |
| Hole 4 |         |         |         |         |

| 1.10b | If a shallow engineered drainage system were feasible, what would be the required surface area of your infiltration system? |   |  |  |  |
|-------|---|---|--|--|--|
|       |   | square metres   |  |  |  |
|       |   | ng information to explain why you are unable to install a shallow engineered drainage an be appended to your application.   |  |  |  |
|       | Documer   | nt reference for these details  |  |  |  |
|       |   |   |  |  |  |
| 1.11  | Please te<br>propose  | ll us the type of deep structure (for example, borehole, well, deep soakage pit) you<br>to install  |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       | What will   | the total depth be?   |  |  |  |
|       |   | metres below ground level   |  |  |  |
| 1.12  | existing i<br>below gro<br>groundwa   | Il us the reason this depth has been selected and, if you are aware of any relevant nformation on local water levels, please also tell us the depth to groundwater (in metres ound level). What measures will you undertake to ensure the discharge is not direct into ater? If the discharge will be direct to groundwater explain why you cannot make it indirect. Scharges to groundwater cannot be permitted. |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
|       |   |   |  |  |  |
| Proxi | mity of y   | our discharge to other receptors  |  |  |  |
| 1.13  | 50 metre  | rehole, well or other deep structure where the discharge is being/will be made within s of any other well, spring or borehole used to supply water for drinking water or food on purposes?  |  |  |  |
|       | ☐ Yes   | Please show the location of the well, spring or borehole you identified in answer to question 1.13 on the plan you have provided for section 4 of the main application form. Please now answer question 1.14  |  |  |  |
|       | No  | Please now answer question 1.15   |  |  |  |

| 1.14   | Please tell us about the water supply (or supplies) used for drinking water or food production purposes identified in question 1.13 above; for example, the name of the property or properties served by the water supply, what they use the water for (drinking water, food production) and where they are in relation to your discharge |
|--------|---|
|        |   |
|        |   |
|        |   |
|        |   |
|        |   |
|        |   |
| 1.15   | What is the distance to the nearest watercourse (for example, surface water, river, stream or ditch)?   |
|        | metres  |
| Please | e tell us whether you have considered discharging to surface water and why this is not feasible   |
|        |   |
|        |   |
|        |   |
|        |   |
|        |   |
|        |   |
| n Tab  |   |

In Table 5 please provide any further information required for us to complete a groundwater quantitative risk assessment on your behalf in line with the guidance 'Groundwater risk assessment for your environmental permit' at <a href="https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-">https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-</a> environmental-permit. Without this information we will be unable to carry out a hydrogeological risk assessment on your behalf.

Table 5 summarises the information required to allow us to undertake a hydrogeological risk assessment of your discharge to a deep infiltration system. Without this information your application will be rejected. You will already have provided some of this information earlier in this application form. We also need you to provide additional information indicated by a tick  $(\checkmark)$  in Table 5. For further guidance on the additional information required please search for 'Groundwater risk assessment for your environmental permit' at https://www.gov.uk/guidance/groundwater-risk-assessment-for-your-environmental-permit and the guidance notes on part C6. You may require the advice of an environmental consultant to collate this information.

For some of the risk assessment inputs we are better placed to provide the information and will do so for those parameters indicated by an asterisk (\*) as far as possible. However, if you wish to provide site-specific information for those parameters with an asterisk you are welcome to do so.

# Table 5 – Further information required for the Environment Agency to complete a groundwater quantitative risk assessment on your behalf

| Information   | Description  | Existing structure   | Proposed structure | Information supplied?                    |
|---|--|----------------------|--------------------|--|
| Information supplied by th                                | e applicant  |                      |                    |  |
| This has already been requ                                | uested earlier in the application fo                                   | orm                  |                    |  |

Information supplied by the applicant

This is additional information we need from you that is not provided elsewhere on the application form. Site data should be given where it is already available. If not, you can submit the relevant literature values quoting the source of the data and justification of the values you have selected. Please tick the right-hand column to confirm you have provided this essential information.

| Information Description   |   | Existing structure | Proposed structure | Information supplied? |
|---|---|--------------------|--------------------|-----------------------|
| Concentration of relevant substances entering the infiltration system | For discharges of domestic effluent we will routinely assess the concentration of nitrogen species, particularly the ammonium concentration   | <b>√</b>           | <b>✓</b>           |                       |
| Length of screened borehole section below the water table (metres)    | Depth in metres of the borehole screened section that is below the water table (This applies only to boreholes that have groundwater in the base)   | ✓                  | <b>✓</b>           |                       |
| Calculated area of infiltration system (square metres)                | Explain how the area of the infiltration system has been calculated – this is especially relevant if a non-circular system is used  | ✓                  | <b>✓</b>           |                       |

## Appendix 2 - Discharges into land

Answer the questions below. Use a separate line for each effluent if more than one effluent discharges using this discharge point. Remember, when linking your effluent to a discharge point you must use the name you gave to your effluent in answer to question 1b in the effluent form.

| 2.1  | Give the discharge point a unique name  |
|------|---|
|      | For example, 'Outlet 1' (you must use this name to identify the discharge point on the plan)  |
|      |   |
| 2.2  | Give the national grid reference of the discharge point   |
|      |   |
| 2.3  | Is your infiltration system new or existing?  |
|      | New Now go to question 2.5  |
|      | Existing Now go to question 2.4   |
| 2.4a | When was it built?  |
|      |   |
| 2.4b | Now answer questions $2.5-2.8$ if you are able to, if not leave them blank and go to question $2.9$   |
| 2.5  | Is your infiltration system designed and built to British Standard 6297:2007 + A1:2008 or the British Standards in force at the time of installation? |
|      | ☐ Yes   |
|      | No Please provide details, on a separate sheet, of the design criteria used for your infiltration system  |
|      | Document reference  |
|      |   |
| 2.6  | On what date did you carry out a percolation test and dig a trial hole in line with British Standard 6297:2007 + A1:2008?                             |
|      | (DD/MM/YYYY)  |
| 2.7  | What is your percolation value (Vp) result?   |
|      | seconds per millimetre  |

You must show in Table 6 how you worked out the percolation value. Please also provide your test sheets and any field notes or observations made regarding ground conditions.

#### Table 6 - Percolation value

|        | Trial 1 | Trial 2 | Trial 3 | Average |
|--------|---------|---------|---------|---------|
| Hole 1 |         |         |         |         |
| Hole 2 |         |         |         |         |
| Hole 3 |         |         |         |         |
| Hole 4 |         |         |         |         |

| 2.8  | Please show us how you have calculated the area (A) of your infiltration system   |  |  |  |  |
|--|---|--|--|--|--|
|  | p x   |  |  |  |  |
|  | Vp x  |  |  |  |  |
|  | 0.25 for septic tanks =   |  |  |  |  |
|  | A L <sup>0</sup> square metres  |  |  |  |  |
|  | or  |  |  |  |  |
|  | p x   |  |  |  |  |
|  | Vp  x   |  |  |  |  |
|  | 0.20 for package treatment plants =   |  |  |  |  |
|  | A L <sup>0</sup> square metres  |  |  |  |  |
|  | p Population based on maximum occupancy   |  |  |  |  |
|  | Vp Percolation value in seconds/mm  |  |  |  |  |
| 2.9  | If known, mark on the plan you have provided the extent of the infiltration system. Please write on the plan the length and width of the sides in metres. |  |  |  |  |
| 2.10 Is any part of your infiltration system within 50 metres of a well, spring or borehole?  No |   |  |  |  |  |
|  | Yes Identify the location of the well, spring or borehole on the plan you have provided and answer question 2.11  |  |  |  |  |
| 2.11   | Is the well, spring or borehole you have identified used to supply water? $\hfill \Box$<br>No   |  |  |  |  |
|  | Yes You must describe what the water supplied is used for   |  |  |  |  |
|  |   |  |  |  |  |
|  |   |  |  |  |  |
|  |   |  |  |  |  |
|  |   |  |  |  |  |
| 2.12   | Is any part of your infiltration system within 10 metres of a watercourse?  |  |  |  |  |
|  | <ul><li>No</li><li>☐ Yes Identify the location of the watercourse on the plan you have provided for section 4</li></ul>                                   |  |  |  |  |
|  | of part C2  |  |  |  |  |
|  |   |  |  |  |  |

# Appendix 3 - Discharges onto land

Answer all the questions below. Use a separate line for each effluent if more than one effluent discharges using this discharge point. Remember, when linking your effluent to a discharge point you must use the name you gave to your effluent in answer to question 1b in the effluent form.

| 3.1  | Give the discharge point a unique name  |
|------|---|
|      | For example, 'Outlet 1' (you must use this name to identify the discharge point on the plan)        |
|      |   |
| 3.2  | Give the national grid reference of the discharge point   |
|      |   |
| 3.3  | Select from the table below the type of area where the effluent is disposed of                      |
| Area | a type  |
| Unli | ned reed bed  |
| Unli | ned grass plot  |
| Unli | ned wetland   |
| Othe | er Please specify below   |
|      |   |
|      |   |
|      |   |
|      |   |
|      |   |
| 3.4  | What is the surface area of the land used for your disposal?  |
|      | square metres   |
| 3.5  | Is any part of your infiltration system within 50 metres of a well, spring or borehole?             |
| J.J  | No  |
|      | Yes Identify the location of the well, spring or borehole on the plan you have provided and         |
|      | answer question 3.6   |
| 3.6  | Is the well, spring or borehole you have identified used to supply water?                           |
|      | □ No  |
|      | Yes You must describe what the water supplied is used for   |
|      |   |
|      |   |
|      |   |
|      |   |
|      |   |
| 2 7  | le any navt afgagy infiltration system within 10 matrice of a watercass                             |
| 3.7  | Is any part of your infiltration system within 10 metres of a watercourse?                          |
|      | □ No  |
|      | Yes Identify the location of the watercourse on the plan you have provided for section 4 of part C2 |

# Appendix 4 - Discharges to tidal river, tidal stream, estuary or coastal waters

Answer all the questions below. Use a separate line for each effluent if more than one effluent discharges using this discharge point. Remember, when linking your effluent to a discharge point you must use the name you gave to your effluent in answer to question 1b in the effluent form.

| 4.1 | Give the discharge point a unique name   |
|-----|--|
|     | For example, 'Outlet 1' (you must use this name to identify the discharge point on the plan)  Outlet 12  |
| 4.2 | Give the national grid reference of the discharge point  ST 19315 46475  |
| 4.3 | Give the name of the tidal river, tidal stream, estuary or area of coastal water if you know it  Severn Estuary  |
| 4.4 | Is the discharge into a  ☐ Tidal river ☐ Tidal stream ✓ An estuary ☐ Coastal water   |
| 4.5 | Does the discharge reach the watercourse by flowing through a surface water sewer?  Yes Give the national grid reference where the discharge enters the surface water sewer  |
| 4.6 | <ul> <li>✓ No</li> <li>Is the discharge point above the mean low water spring tide mark?</li> <li>☐ Yes Please explain, on a separate sheet, why the discharge cannot be made below this point Document reference</li> </ul> |
| 4.7 | ✓ No How is the effluent dispersed? For example, open pipe or diffuser system Open pipe  |
| 4.8 | If diffuser system go to question 4.8 Give details, on a separate sheet, of the design of the diffuser system Document reference   |

| Is the discharge made to a roadside drain or ditch? |  |   |  |  |  |  |
|---|--|---|--|--|--|--|
|   | No   |   |  |  |  |  |
|   | Yes  | If yes, it is your responsibility to ascertain whether the relevant highways authority is responsible for the roadside drain or ditch. If it is, you need to secure the appropriate permissions from the relevant highways authority before submitting an application for an environmental permit to the Environment Agency. A copy of the written permission from the relevant highways authority must be submitted with the environmental permit application. |  |  |  |  |
| Do  | Document reference for the written permission from the relevant highways authority |   |  |  |  |  |
| 1   |  |   |  |  |  |  |

#### NOT PROTECTIVELY MARKED

101262820

Form EPC: Application for an environmental permit – Part C6 varying a water discharge activity or groundwater activity (point source discharge), or point source emission to water from an installation

# Appendix 5 - Discharges to non-tidal river, stream or canal

Answer all the questions below. Use a separate line for each effluent if more than one effluent discharges using this discharge point. Remember, when linking your effluent to a discharge point you must use the name you gave to your effluent in answer to question 1b in the effluent form.

| Give the discharge   | e point a unique na  | me                  |                        |                          |  |  |
|--|----------------------|---------------------|------------------------|--------------------------|--|--|
| For example, 'Out  | let 1' (you must use | e this name to ider | ntify the discharge    | point on the plan)       |  |  |
|  |                      |                     |                        |                          |  |  |
| Give the national  | grid reference of th | e discharge point   |                        |                          |  |  |
|  |                      |                     |                        |                          |  |  |
| Give the name of   | the watercourse, ca  | anal or the main wa | atercourse it is a tri | butary of if you know it |  |  |
| I  |                      | I                   |                        |                          |  |  |
| Is the discharge in  |                      |                     |                        |                          |  |  |
| Non-tidal rive   | er                   |                     |                        |                          |  |  |
| Stream   |                      |                     |                        |                          |  |  |
| Canal  |                      |                     |                        |                          |  |  |

Form EPC: Application for an environmental permit – Part C6 varying a water discharge activity or groundwater activity (point source discharge), or point source emission to water from an installation

# Appendix 6 - Discharges to a lake or pond

Answer all the questions below. Use a separate line for each effluent if more than one effluent discharges using this discharge point. Remember, when linking your effluent to a discharge point you must use the name you gave to your effluent in answer to question 1b in the effluent form.

| 6.1  | Give the discharge point a unique name   |                           |  |  |  |  |  |
|------|--|---------------------------|--|--|--|--|--|
|      | For example, 'Outlet 1' (you must use this name to identify the discharg   | e point on the plan)      |  |  |  |  |  |
|      |  |                           |  |  |  |  |  |
| 6.2  | Give the national grid reference of the discharge point  |                           |  |  |  |  |  |
|      |  |                           |  |  |  |  |  |
| 6.3  | Give the name of the lake or pond if you know it   |                           |  |  |  |  |  |
|      |  |                           |  |  |  |  |  |
| 6.4  | Select from the following table the type of lake or pond you will be discharged relevant questions   | narging to and answer the |  |  |  |  |  |
| Турє | e of lake or pond  | Relevant questions        |  |  |  |  |  |
| Lake | e or pond which is not connected to a river or watercourse   | Permit not required*      |  |  |  |  |  |
| you  | e or pond which is not connected to a river or watercourse, where have had a notice served under paragraph 5 of Schedule 21 of the ronmental Permitting (England and Wales) Regulations 2016 | 6.5, 6.6, 6.7             |  |  |  |  |  |
| Lake | e or pond that discharges into a river or watercourse  | 6.5, 6.6, 6.7             |  |  |  |  |  |
|      | ess a Notice has been served under paragraph 5 of Schedule 21 of the En<br>and and Wales) Regulations 2016   | vironmental Permitting    |  |  |  |  |  |
| 6.5  | What is the surface area of the lake or pond?  |                           |  |  |  |  |  |
|      | square metres  |                           |  |  |  |  |  |
| 6.6  | What is the maximum depth of the lake or pond?   |                           |  |  |  |  |  |
|      | metres   |                           |  |  |  |  |  |
| 6.7  | What is the average depth of the lake or pond?   |                           |  |  |  |  |  |
|      | metres   |                           |  |  |  |  |  |

# Application for an environmental permit Part F1 – Charges and declarations

You will need to use an Adobe Acrobat reader product to complete this form. The form may not work properly if you use a different pdf reader, such as the one built-in to your internet browser.

Fill in this part for all applications for:

- installations (excluding new permit and variation applications for intensive farming. Use application form Part B3.5 or C3.5 instead)
- waste operations
- mining waste operations
- medium combustion plant
- specified generators
- water discharges (excluding small discharges of 23m³ per day if using Part B6.5)
- groundwater activities (excluding small discharges of 15m³ per day or less if using Part B6.5 OR existing small discharges to Source Protection Zone1 if using Part B6.6)

Please check that this is the latest version of the form available from our website.

Please read through this form and the guidance notes that came with it.

The form can be:

- 1) saved onto a computer and then filled in.
- 2) printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than two hours to fill in this part of the application form.

#### **Contents**

- 2 Payment
- 3 Privacy notice
- 4 Confidentiality and national security
- 5 Declaration
- 6 Application checklist
- 7 How to contact us
- 8 Where to send your application

# 1 Working out charges

You must fill in this section.

You have to submit an application fee with your application. For guidance on the fee and how to pay your charges, please see our charging guidance (<a href="https://www.gov.uk/government/publications/environmental-permitting-charges-guidance">https://www.gov.uk/government/publications/environmental-permitting-charges-guidance</a>) and associated links to the current charging scheme. You can also contact us for pre-application to help work out charges

Please that there is an annual subsistence charge to cover the costs we incur in the ongoing regulation of the permit.

# 2 Payment

Tick below to show how you have paid.

|  | Credit | or de | bit | card |
|--|--------|-------|-----|------|
|--|--------|-------|-----|------|

Electronic transfer (for example, BACS)

#### Cheques

You should make cheques payable to 'Environment Agency' and make sure they have 'A/c Payee' written across them if it is not already printed on.

Please write the name of your company and application reference number on the back of your cheque. We will not accept cheques with a future date on them.

# 2 Payment, continued

#### Credit/debit cards

If you are paying by credit or with debit card we will call you. We can accept payments by Visa, MasterCard or Maestro card only.

Call me to arrange payment by debit or credit card

#### **Electronic transfer BACS**

If you choose to pay by electronic transfer, you will need to use the following information to make your payment:

Company name Environment Agency

Company address SSCL (Environment Agency), PO Box 797, Newport Gwent, NP10 8FZ

Bank RBS/NatWest

Address London Corporate Service Centre, CPB Services, 2nd Floor,

280 Bishopsgate, London EC2M 4RB

Sort code 60-70-80
Account number 10014411
Account name EA RECEIPTS
Payment reference number PSCAPPXXXXXYYY

You need to create your own reference number. It should begin with PSCAPP (to reflect that the application is for a permitted activity) and it should include the first five letters of the company name (replacing the X's in the above reference number) and a unique numerical identifier (replacing the Y's in the above reference number). The reference number that you supply will appear on our bank statements.

You should also email your payment details and reference number to ea\_fsc\_ar@gov.sscl.com.

If you are making your payment from outside the United Kingdom, it must be in sterling. Our IBAN number is GB23NWBK60708010014411 and our SWIFTBIC number is NWBKGB2L.

If you do not quote your reference number, there may be a delay in processing your payment and application.

# 3 Privacy notice

The Environment Agency runs the environmental permit application service.

See <a href="https://www.gov.uk/guidance/environmental-permits-privacy-notice">https://www.gov.uk/guidance/environmental-permits-privacy-notice</a> for how we use your personal information in services to services to support environmental permitting.

# 4 Confidentiality and national security

#### Confidentiality

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

You can ask for information to be made confidential by enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application. You can find guidance on confidentiality in 'Environmental permitting guidance: core guidance', published by Defra and available at <a href="https://www.gov.uk/government/publications/environmental-permitting-guidance-core-guidance--2">https://www.gov.uk/government/publications/environmental-permitting-guidance-core-guidance--2</a>.

Only tick the box below if you wish to claim confidentiality for parts of your application

Please treat the specified information in my application as confidential

### **National security**

You can tell the Secretary of State that you believe including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Secretary of State and you must still include the information in your application. We will not include the information in the public register unless the Secretary of State decides that it should be included.

You can find guidance on national security in 'Environmental permitting guidance: core guidance', published by Defra and available at <a href="https://www.gov.uk/government/publications/environmental-permitting-guidance-core-guidance-2">https://www.gov.uk/government/publications/environmental-permitting-guidance-core-guidance--2</a>

You cannot apply for national security via this application.

Now fill in section 5

### 5 Declaration

If you knowingly or carelessly make a statement that is false or misleading to help you get an environmental permit (for yourself or anyone else), you may be committing an offence under the Environmental Permitting (England and Wales) Regulations 2016.

A relevant person should make the declaration (see the guidance notes on part F1). An agent acting on behalf of an applicant is NOT a relevant person.

Each individual (or individual trustee) who is applying for their name to appear on the permit must complete this declaration. You will have to print a separate copy of this page for each additional individual to complete.

If you are transferring all or part of your permit, both you and the person receiving the permit must make the declaration. You must fill in the declaration directly below; the person receiving the permit must fill in the declaration under the heading 'For transfers only'.

Note: we will issue a letter to both current and new holders to confirm the transfer. If you are changing address we will need to send this letter to your new address; therefore please tell us your new address in a separate letter.

If you are unable to trace one or more of the current permit holders please see below under the transfers declaration.

## 7 How to contact us

If you have difficulty filling in this form, please contact the person who sent it to you or contact us as shown below.

General enquiries: 03708 506 506 (Monday to Friday, 8am to 6pm)

Textphone: 03702 422549 (Monday to Friday, 8am to 6pm)

Email: enquiries@environment-agency.gov.uk

Website: www.gov.uk/government/organisations/environment-agency

If you are happy with our service, please tell us. It helps us to identify good practice and encourages our staff. If you're not happy with our service, or you would like us to review a decision we have made, please let us know. More information on how to do this is available at: <a href="https://www.gov.uk/government/organisations/environment-agency/about/complaints-procedure.">https://www.gov.uk/government/organisations/environment-agency/about/complaints-procedure.</a>

Please tell us if you need information in a different language or format (for example, in large print) so we can keep in touch with you more easily.

# 8 Where to send your application

For how many copies to send see the guidance note on part F1.

Please send your filled in application form and supporting documents to:

For water discharges and groundwater activities by email to

## PSC-WaterQuality@environment-agency.gov.uk

For waste, installations, medium combustion plant and specified generators by email to

#### PSC@environment-agency.gov.uk

For large electronic documents (too large for email attachment) you can upload your applications to file sharing sites and send us a link to download the documents. Alternatively, you can send more than one email with documents attached.

Or by post to:

Permitting Support, NPS Sheffield Quadrant 2 99 Parkway Avenue Parkway Business Park Sheffield S9 4WF

#### Annex 1:

#### Part C6, Section 5, question 5b2

Due to temporary nature of the Hinkley Point C nuclear new build site, the remote location, plus local infrastructure suitability to the nature the volume of the flow, connecting to the nearest foul sewer is not practicable.

Costs, time delays and disruption to local foul sewer network would not be proportionate.

HPC is unable to discharge the treated effluent into the local foul sewer network for the above reasons.
