Hi both,

Further to the information supplied attached is the TCM information that has recently been updated.

Regards

Josh

Morning,

Please see the attached background files.

Please see the link below for the noise modelling files, let me know if this link works and can be downloaded.

Hi Josh

If you receive the documents from Nova whilst I am on leave, please can you forward them directly to Matthew.Hill@environment-agency.gov.uk

Please include the application number in your email and also copy me in.

Anything else, I will sort out when I return from leave.

Regards

Helen

Hi Helen,

I have not received a reply from NOVA regarding the below so don't think this is something I provide however I may be able to supply this tomorrow pending a response.

Regards

Josh

Hi Joshua

As discussed in our telephone conversation just now please can you send me the following files to accompany your Noise Impact Assessment:

Required auditing files

- a) The raw background sound data from all survey measurements must be provided in a spreadsheet or other tabulated format. The time, date, LAeq, LMax and LA90 should be provided for each individual measurement in 15 minute or 1 hour intervals. A graphical presentation or summary table of the information is not sufficient, raw numerical data in spreadsheet format is required.
- b) Provide the noise modelling files (SoundPLANs 9.0) used to predict the specific sound levels within the report, in the original format in line with EA guidance: [Noise impact assessments involving calculations or modelling - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/noise-impact-assessments-involving-calculations-or-modelling).

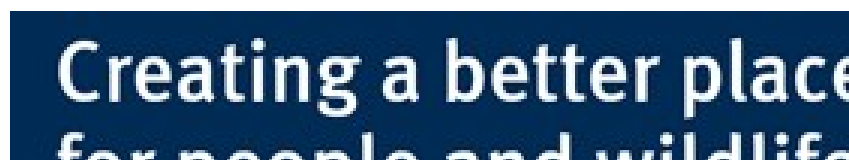

Please note that I will be on leave after today until 13/10/2025. If it is not possible to send these files to me today, please can you let me know?

Thank you

Helen Gregory
