

# Application for an environmental permit Part C5 – Varying a permit to become a mining waste operation permit or varying a bespoke mining waste permit

**Fill in this part of the form, together with part A, part C2 and part F1, if you are applying to vary (change) the conditions or any other part of the permit. Please check that this is the latest version of the form available from our website.**

**You only need to give us details in this application for the parts of the permit that will be affected (for example, if you are adding a new facility or making changes to existing ones).**

**You do not need to resend any information from your original permit application if it is not affected by your proposed changes.**

**Please read through this form and the guidance notes that came with it.**

The form can be:

- 1 Saved onto a computer and then filled in. Please note that the form follows a logic that means questions will open or stay closed depending on a previous answer. So you may not be able to enter text in some boxes.
- 2 Printed off and filled in by hand. Please write clearly in the answer spaces.

It will take less than two hours to fill in this part of the application form.

## 1 What activities are you applying to vary?

### 1a Tick the relevant box below (to see the full description of each activity see the guidance notes on part C5)

- Management of any extractive waste in a Category A mining waste facility
- Management of hazardous waste
- Management of non-inert, non-hazardous extractive waste that includes a mining waste facility
- Management of non-inert, non-hazardous extractive waste that does not include a mining waste facility
- Management of inert extractive waste that includes a point-source discharge to water
- Management of inert extractive waste by passive treatment that is controlled by the conditions for the discharge set in the permit; for example, a settlement pond that becomes part of the site restoration when dry

A waste management plan has been prepared for the new mining waste facility for overburden placement in bunds south east and north east of the planned quarry extension. There is also a waste management plan for operations at the existing quarry and tip which is unchanged.
