

About this consultation

TS10 4RF, IEX Technologies Ltd: environmental permit consultation

The aim of this consultation is to ask whether you have any comments relevant to the permit application

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for IEX Technologies Ltd. Please use the reference number below when making comments on this application.

- Permit Number: EPR/WE3647AC/A001
- Regulated facility type: This is an application for a new bespoke permit authorising the chemical treatment of hazardous and non-hazardous waste. Aqueous and organic wastes will be processed to recover precious metals by distillation and concentration of the waste materials and adsorption of the precious metals using ion exchange or scavenger material to immobilise the precious metals as a solid. The maximum annual tonnage will be 250 tonnes per year. There will be a maximum of 10 tonnes of unprocessed waste stored on site at any one time, with 1-2 tonnes of waste processed per day.
- Regulated facility location: Wilton Centre, Pod 5, Innovation Accelerator, Wilton Centre, Redcar, TS10 4RF

Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language. This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

How to Respond

If you would like to comment online, please use the online consultation tool in Citizen Space.

If you'd prefer to submit your response by email, contact PSCpublicresponse@environment-agency.gov.uk

How we will use your information

We will look to make comments received publicly available at our Environment Agency public register.

All comments which are made publicly available will exclude email addresses and telephone numbers. Any comments where confidentiality has been claimed will not appear on the public register.
