

## About this consultation

### TS25 1NS, N&P Hartlepool MRF Ltd: environmental permit consultation

**The aim of this consultation is to ask whether you have any comments relevant to the permit application**

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for N&P Hartlepool MRF Ltd. Please use the reference number below when making comments on this application.

- Permit Number: EPR/GP3399LG/V006
- Regulated facility type: This substantial variation is to add the following Schedule 1 listed activity under the Environmental Permitting (England and Wales) Regulations 2016:  
  
S5.4 A(1) (b) (ii) Recovery or a mix of recovery and disposal of non-hazardous waste with a capacity exceeding 75 tonnes per day involving pre-treatment of waste for incineration or co-incineration  
  
The activity involves the treatment of SRF pellets by hammermill. The facility is currently permitted as a pre-treatment facility for waste prior to incineration and co-incineration. This new activity represents an additional treatment activity that can process both site derived SRF pellets and imported SRF pellets. The operator also seeks to amend the storage arrangements for the waste operation activity involving the transfer of wastes as part of the variation.
- Regulated facility location: Niramax Transfer Station, Thomlinson Road, Hartlepool, TS25 1NS

#### Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

#### What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.

### How we will use your information

We will look to make comments received publicly available at our Environment Agency public register.

All comments which are made publicly available will exclude email addresses and telephone numbers. Any comments where confidentiality has been claimed will not appear on the public register.

In accordance with the Freedom of Information Act 2000, we may be required to publish your response to this consultation, but will not include any personal information. If you have requested your response to be kept confidential, we may still be required to provide a summary of it.

### Consultation Principles

We are running this consultation in accordance with the criteria set out in the government's [Consultation Principles](#).

If you have any queries or complaints about the way this consultation has been carried out, please email: [PSCpublicresponse@environment-agency.gov.uk](mailto:PSCpublicresponse@environment-agency.gov.uk)
