

CURRICULUM VITAE

Nicholas Jones

BEng(Hons) CEng MIOA

Principal Acoustic Consultant

- Chartered Acoustic Engineer
- BEng(Hons) Acoustical Engineering
Institute of Sound & Vibration Research
University of Southampton
- Member of the Institute of Acoustics

Nicholas brings wide and varied knowledge from over 20 years' acoustic consultancy experience and is well known across the industry.

He has spoken at related events in the UK and overseas for Corenet, RIBA and CIBSE and authored technical articles in Property Week, Building Magazine and the Architect's Journal.

Nicholas has acted as acoustic consultant on successful projects of varying sizes and types for a diverse range of clients, including:

- Sky
- The Football Association
- Transport for London
- Rio Tinto
- European Medicines Agency
- Willis Towers Watson
- Sainsbury's
- K&L Gates
- Carnival Cruises
- Ministry of Defence
- Home Office
- Royal Sun Alliance

Nicholas' experience spans a variety of sectors, including residential projects, office buildings, mixed-use developments, workplaces, healthcare buildings, retail outlets & shopping centres, as well as schools, colleges & universities.

Nicholas is also skilled in the use of noise mapping and room acoustics software and his experience spans the full range of acoustic consultancy, including environmental, building services and architectural acoustics, as well as surveys, testing, monitoring and noise/vibration at work assessments.
