---

Dear P&SC,

Please find the attached a WR2 minor variation form to alter our reservoir abstraction licence no. 2671311004.

We have liaised with Alison McLean, EA, regarding this application who confirmed that the changes we need to make could be done through a minor variation.

This application is to move the compensation flow and water bank requirements from the abstraction licence on to the associated impoundment licence (or a Section 20 agreement if deemed more appropriate).

We have two ongoing impoundment licence variations that relate to this abstraction licence variation. On the 22 March 2022 we applied via a WR2 minor variation to update the licence holder name and address. On the 11 March 2022 we applied for an impoundment licence variation related to a weir raising project (ref. NPS/WR/035903). Alison McLean, EA, has recommended we apply for this minor variation to the abstraction licence as EA practice now is to place compensation flow and water bank requirements on impoundment licences rather than abstraction licences; and we have ongoing impoundment licence applications so this change can be accommodated as part of those applications.

If you require any further information, please do not hesitate to contact me via the details listed below.

Kind regards,

Janet
