

## About this consultation

### WF8 3LU, Wentvalley Aggregates & Recycling Limited: environmental permit consultation

**The aim of this consultation is to ask whether you have any comments relevant to the permit application**

We want to make the best decision when permitting. Listening to the views of others helps us to take account of concerns, or local environmental factors, that we may not be otherwise aware of.

We are seeking comments on the application for Wentvalley Aggregates & Recycling Limited. Please use the reference number below when making comments on this application.

- Permit Number: EPR/FP3724SM/A001
- Application for the partial infilling of a void associated with an existing mineral workings with non-hazardous waste and inert waste arisings from quarrying operations. The permit will not authorise treatment of waste prior to placement. Waste will be used for restoration and slope stabilisation of the worked quarry faces.
- Regulated facility location: Went Edge Quarry, Smeaton, Pontefract, WF8 3LU

#### Non-Technical Summary

Refer to the non-technical summary which explains this application, in non-technical language.

This should include a summary of the regulated facility, the key technical standards and control measures arising from the risk assessment.

#### What the response will be used for

We will take your consultation responses into consideration as part of our determination of the permit. If we decide to grant the permit we will explain how we made our decision and how we have addressed the concerns that were raised.

We will only issue a permit if we believe that harm to the environment, people and wildlife will be minimised and that the operator has the ability to meet the conditions of the permit. Providing a business can prove that the proposed activities meets all the legal requirements, including environmental, technological and health requirements, then we are legally obliged to issue a permit, even if some people do not approve of the decision.
