Introductory note

This introductory note does not form a part of the notice.

Under the Environmental Permitting (England & Wales) Regulations 2016 (schedule 5, part 1, paragraph 19) a variation may comprise a consolidated permit reflecting the variations and a notice specifying the variations included in that consolidated permit.

Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the variations being made. Only the variations specified in schedule 1 are subject to a right of appeal.

The original variation application submitted on the 12 December 2018 was to increase the annual waste input at Walleys Quarry Landfill Site from 250,000 tonnes to 300,000 tonnes. The Operator then amended the application to increase the annual waste input to the site from 250,000 tonnes to 400,000 tonnes on the 13 May 2019.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
