What are we doing in your area?

As you may be aware, we are planning flood alleviation works to better protect properties in the Clementhorpe area from flooding. This includes building a continuous line of defence between Skeldergate Bridge and the northern end of Rowntree Park. Ahead of this work, we need to carry out some ground investigation works to find out what services lie underground and understand the ground conditions. A series of bole holes and trial pits are planned for the stretch of Terry Avenue between Skeldergate Bridge and Waterfront House and the Clementhorpe Junction. The road will be closed whilst the work is being undertaken. We are looking to reopen the junction however by the end of Sunday 10th March.

When will this happen?

We plan to start works on 4 March and finish on 14 March. To ensure that the works can be carried out safely, we will be closing this stretch of Terry Avenue for the duration of the work. Pedestrian access will be available but access to vehicles during this time will not be possible.

How can I get in touch?

If you would like to find out more about our plans, or the wider scheme for Clementhorpe area, you can get in touch by:

- Visiting us at the Community Flood Hub on Wellington Row, North Street on Monday, Wednesday or Thursday between 10am and 4pm
- Emailing us at yorkfloodplan@environment-agency.gov.uk
- Following us on Facebook @YorkFAS
